INVEST IN TB. SAVE LIVES.

PNG's rates of tuberculosis, drug-resistant TB, and new HIV infections continue to rise. In 2025, the Minister for Health declared TB & HIV national emergencies.

In 2026, more than 70,000 people will be seriously ill with TB, and more than 12,000 will die from diseases that are both preventable and treatable.

TB is a major burden on people, businesses, and the economy.

Your workplace can play a vital role in ending this crisis. Support for B4H will help to end PNG's deadliest infectious disease.

B4H trains non-health staff in practical, effective TB and HIV workplace programs. We help businesses connect employees to free testing, treatment, and care, reducing absenteeism, stigma, and productivity loss

Our vision is a TB and HIV free PNG.

- Call Moita@businesses4health.com to request a TB briefing for your senior management team
- Commit to our training & support program each year
