

MT. HALEY TOWNSHIP NEWSLETTER

SUMMER 2024 EDITION

Summer has arrived! There are a few items taking place in the Township this summer.

There are numerous road repairs taking place in the township this year. A few sections of township roads are being chipped and sealed. Brooks Road from Duncan Road to Patterson Road has been repaved. Maintenance on ditches and township drains are also taking place. We appreciate your patience with all of the road construction and detours within the Township.

The Township has added a Verizon Tower located on the corner of Homer Road and Brooks Road. We are hoping this will increase service in the area.

The township assessor, Frank Roenicke, will be visiting every parcel in the township for assessing over a five-year period. He will start at the south end of the township and work his way north. Your cooperation will be greatly appreciated. Frank Roenicke can be reached at (989) 708-1162.

Also, as a reminder, the township website is: www.mthaleypw.com.

This is our community we live and take pride in. The Board would like to thank everyone for keeping the township neat and clean.

The township board would like to wish everyone a safe and enjoyable summer.

Respectfully,

Ken Brown

Mt. Haley Township
