

MT. HALEY TOWNSHIP NEWSLETTER

SUMMER 2026 EDITION

Summer is upon us and the township has several projects planned for the summer.

Road construction projects for this year will include Brooks Road from Homer Road to Duncan Road. Crack seal projects include Duncan Road and Bradford Road. There will also be cleaning out of some of the ditches throughout the township.

Surrounding Townships are in need of firemen. Mt. Haley Township is serviced by Midland Township Fire Department for medical and fire protection. If you would like to become a fireman, please contact your local fire department for information on how to join.

For the safety of our Fire Department, Medical Emergency Services and residents of Mt. Haley Township, please keep your residential or business driveway accessible for emergency vehicles. One second or one minute might make a difference in the case of an emergency.

Our assessor is still assessing parcels in the township. Your cooperation will be greatly appreciated. The township assessor, Frank Roenicke, can be reached at (989) 708-1162.

The township board would like to wish everyone a safe and enjoyable summer.

Respectfully,

Ken Brown

Mt. Haley Township

Supervisor
