Township Contract Customers of the City of Midland Landfill
Midland, Michigan

Dear Landfill Customer:

The City of Midland owns and operates a landfill located at 4311 East Ashman Street in Midland. On June 10, 2024, City Council approved a fee increase for its Landfill. Attached with this letter is the new fee ordinance, which takes effect July 1, 2024, for all customers.

Notably for Townships, the landfill fee has changed from \$10.50 to \$11.00 per cubic yard. No changes to fees were enacted for Midland County residents using the landfill. Residents continue to have access to one monthly visit up to three cubic yards (a level full-bed pickup truck) of waste or yard clippings from their own home for no charge. Fees apply for multiple visits or specialty items. Please contact us for more information.

The City continues to work to limit fee increases while managing factors such as inflation and regulatory changes. We strive to continue providing Midland County businesses and residents with consistent, excellent service and all-weather access in a cost-effective manner.

Please contact us with questions at 989.837.6988 or lfgatehouse@midland-mi.org.

Respectfully Submitted,

Scott O'Laughlin
City of Midland
Landfill Superintendent
