

THE TACO CONNECTION

CATERING INFORMATION

The Taco Connection appreciates you considering us for your next event. We have 2 different catering options, allowing you to customize catering based on what will work best for your event.

The first option is a taco bar setup. This is a great option if you would like your guests to construct their own tacos. It's fun, hands on, and allows guests to make a variety of tacos to their liking. We recommend this setup for parties and other social events.

The second option is more straightforward. Choose the number and type of bowls you would like, and we deliver them to your location. This option is great for meetings and corporate events where convenient, easy to eat bowls are preferred.

We look forward to speaking to you about catering your event!
