To: All Licensees and Applicants

FROM: LSLBC

Date: August 19, 2025

Subject: Residential Roofing License – UPDATE

Those who are applying for the Residential Roofing classification are reminded that the entire application process must be completed. This includes submitting all required documents and paying the appropriate fees.

No one will be able to schedule the Residential Roofing exam until the applications process has been satisfied.

Once an application has been processed, the qualifying party will be contacted by email to verify their information before they can be approved for an exam. After verification is complete, further instructions will be sent on how to access the LSLBC web portal to self-schedule their exam at the Baton Rouge location.
