

NEW SETUP PROCEDURE FOR LYRICS

New updates on apple computer and Propresenter have affected the way we connect to external displays. This is something we cannot change.

Is this an inconvenience? Perhaps, but only if we treat it as such.

Think of it as a new step in our setup procedures.

CDA Media was made to go with the flow. *We will overcome.*

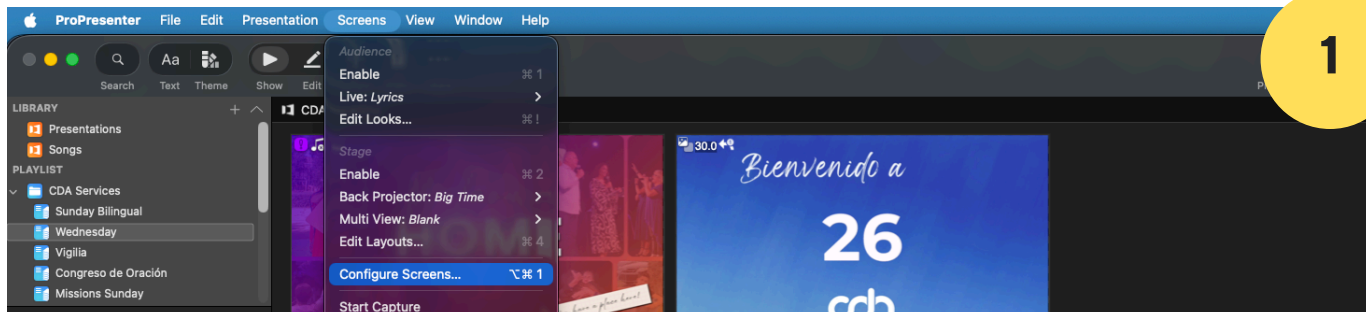

**Atem Mini (black box on table with 1,2-3,4)
and Projector need to be
ON BEFORE computer**

FIRST

Open Propresenter

Bottom left click grey X twice

Then follow the steps in the next pages

To Assign Screens

a. Configure screens

1. Select Audience

a. Under Output select

1080p60

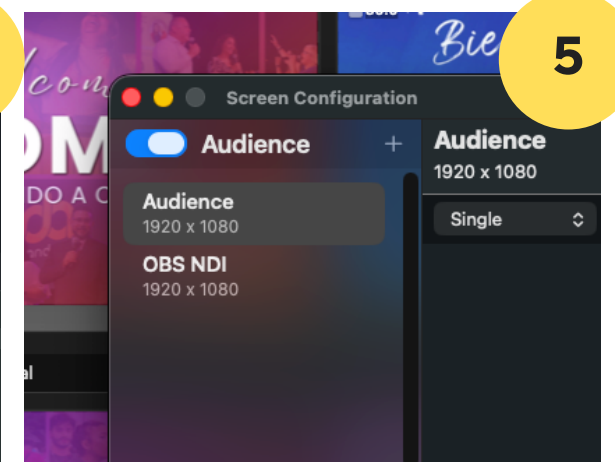

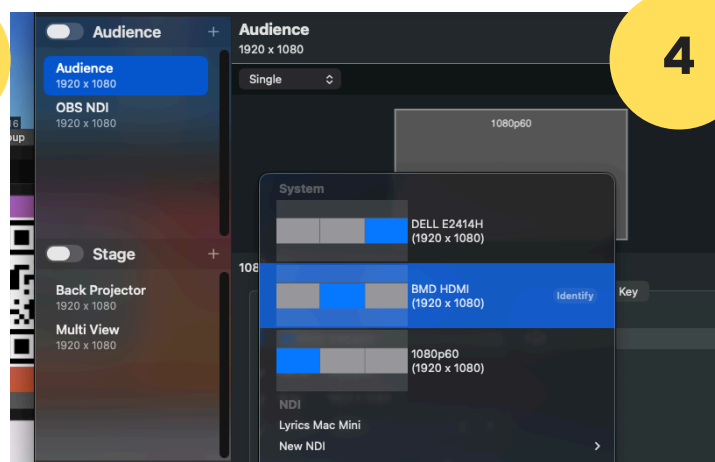

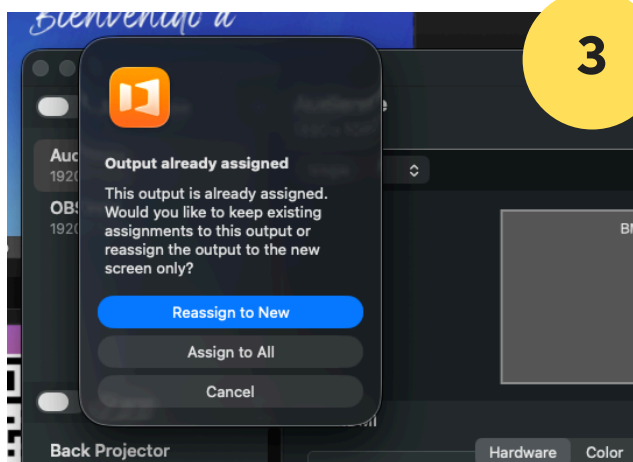

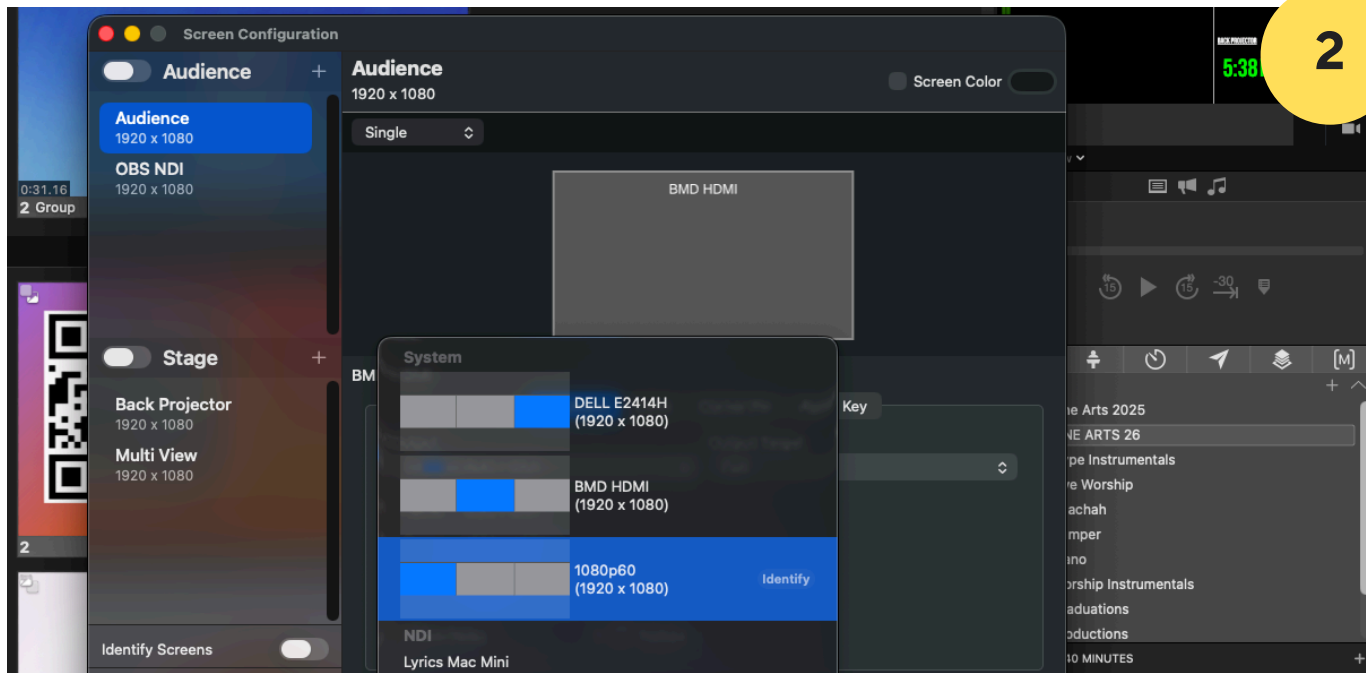

2. Click Reassign to new

3. Again, under Output select

a. BMD HDMI

4. Toggle Audience to blue

NEXT PAGE

6. Select Back Projector

a. Output says Unconfigured. All good!

7. Under Output select

a. 1080p60

8. Toggle Back Projector to blue

9. Everything should work. *Audience*

and *Stage* on the top right should now be green
