

Beating Button Batteries

is as easy as breathing

Avoid

purchasing high-risk items

Use child-safe packaging or blisters instead of packaging that is easily torn away

Purchase “**bitter batteries**” that have a bitter taste to further prevent ingestion

Identify

items in your home that contain button batteries

Calculator

Thermometer

Toys/Games

Hearing Aid or Cochlear Implant

Key Chain or Fob

Watch

Musical Cards or Jewelry

Remote Control
(TV, garage door)

LED lights
(flashlight, candle, laser, pen light)

Remove

button batteries safely

Completely **cover used batteries in duct tape** before disposing

Use drop-off depots and recycling centres found online for safe disposal

We're Taking CHARGE.
