

Safeguarding Children Quiz

It is an Ofsted requirement that all employees who are in contact with children receive safeguarding training. It is advised that they refresh this training at least every three years. All Designated Child Protection/ Safeguarding Leads are expected to attend training every two years. Basic child protection training can also be found online or can be booked through your local authority.

Keeping up to date with safeguarding training is imperative as it is everyone's responsibility to ensure all children are protected from harm.

All early years setting should have safeguarding policies and procedures in place that are adhered by all employers and employees.

- What does safeguarding children mean?
- What would you do if you had a concern about a child?
