

Founder and CEO, Janet Kaye Oneal, DO, who is a board-certified Family Physician,
and her husband, Arthur M. Harris, lived
at this house this house for many years. The house is currently
undergoing renovation for the Assisted Living Program.

Dr. Oneal has successfully completed the state-required 80-hour
course for Assisted Living Managers.

The goal is to turn this house into a home Assisted Living
Program, the first of a network of home Assisted Living Programs
near temples throughout the United States. These programs are
for elderly Latter-day Saints who can no longer reasonably live
independently at home, because they need assistance with
Activities of Daily Living, but do not require regular nursing care or
severe dementia care.
