The **Chrysler Thunderbolt** was named after the land speed record car, driven by Captain George Eyston. That mission had been accomplished at Bonneville Salt Flats, Utah – in '38. The 2-seat roadster Thunderbolt sported an apt chrome lightning flash on its doors. Its straight-eight 323.5 cubic-inch engine made 143bhp. Rather less, no doubt, than its record-breaking namesake. Like the LSR car, though, the Thunderbolt prototype was a promotional tool. In '41, six Thunderbolts duly departed Detroit. They did the rounds of Chrysler dealerships, throughout the USA. The job of these 'dream cars' was to generate buzz for the new range of Chryslers to come.

Which way is it going!?

Prez Sez: By Robert Anderson

May was a very slow month for the MOB. June will probably be similar as the Summer Heat and Showers drive us indoors.

The Alzheimer Raffle car was given away on 14 May. The MOB was invited to attend the festivities and show their classic rides at this annual car show.

Some of the MOB Cars

We found some shade under a tree

This was the first year that a car show award was given, and our own Penny Anderson won the trophy for showing her 1966 Dodge Charger. The 1970 Dodge SuperBEE raffle car winning ticket was from a lady in Antioch, Illinois. The 2023 raffle car was displayed. It is a 1974 Plymouth Duster 426 Hemi car with a Pistol Grip 4 speed. It was previously owned by the president of the Mopars of Ocala Club. It is one of the very few cars with a second generation Hemi that also has Air Conditioning. This car is a one of RESTO MOD built by Butch Arnold of the Ocala Mopar Club.

The Cocoa Village Cruise-In has been cancelled due to lack of public support and availability of a venue. Annie MacDonald has volunteered to support the Treasurer function when Penny is not available. Thank You Annie, we really appreciate your support.

President Bob

GRACE; THE POWER AND MUSCLE TO HEAL

Dodge Deora, another concept car

VW's post war Volkswagen Type 1 gave the British version of the bug's new hope

It was shortly after the first post-war Christmas 1945 that the first of the Volkswagen Type 1 – the model which, as the Beetle, would subsequently be sold more than 21 million times – rolled off the production line. By the end of 1945 only 55 vehicles had been produced in total. However, the start of mass production was a highly improvised undertaking, and material shortages hampered operations over the subsequent months. Yet *the early vehicles were visible symbols of hope; a new beginning for the car plant under British control.*
