MECHANIC VERSUS CARDIOLOGIST

A Lexus mechanic was removing a cylinder head from the motor of a LS460 when he spotted a well known cardiologist in his shop.

The cardiologist was there waiting for the service manager to come and take a look at his car when the mechanic shouted across the garage, “Hey Doc, want to take a look at this?”

The cardiologist, a bit surprised, walked over to where the mechanic was working. The mechanic straightened up, wiped his hands on a rag and asked, “So Doc, look at this engine. I opened its heart, took the valves out, repaired or replaced anything damaged, and then put

everything back in, and when I finished, it worked just like new. So how is it that I make \$48,000 a year and you make \$1.7M, when you and I are doing basically the same work?”

The cardiologist paused, leaned over, and then whispered to the mechanic.....

“Try doing it with the engine running.”
