

# Look What's Cool in *Refrigeration*

Chill out with the latest in refrigerated equipment. From reach-ins to walk-ins to blast chillers to undercounter and back bar refrigerators, every foodservice venue depends on some type of cooler to store their food at safe temperatures. With rising food costs, any loss in inventory can hurt your bottom line. That's why it is more important than ever to acquire refrigerated equipment you can trust. Innovative solutions like LED lighting to entice impulse sales and energy efficient equipment that saves you money are just a few features that have been updated. Whether starting out new or looking to replace existing refrigeration, be sure to invest in quality commercial equipment that will benefit your establishment for many years to come.

## TH Series Heated Reach-Ins

- Powerfully provides holding temperatures of 80° to 180°F throughout the cabinet for uniform, forced-air, heating
- Stainless steel doors and front, the finest stainless available (excludes glass door models)
- Incandescent interior lighting
- Energy efficient, triple pane, thermal insulated glass on glass doors
- 4" diameter swivel castors are standard, 6" legs available
- Self-contained system
- Door locks standard
- Adjustable, heavy duty chrome plated shelves
- Exterior mounted, color coded, temperature monitor
- 12" x 20" pan standard for contents requiring high humidity

TH-23

TH-23G

Reach-Ins	Doors	Shelves	Watts	L x D† x H*
TH-23	1 Solid	3	850	27" x 29½" x 78¾"
TH-23G	1 Glass	3	850	27" x 29¾" x 78¾"

\* Height does not include 5" for castor height or 6" for optional legs

\* Height does not include 1" for ventilator cap

† Depth does not include 1¾" for door handle (glass door model only)

Custom sizes and configurations are available.

### Protecto® Rack Covers

- Standard size 23"w x 28"d x 62"h (Universal Load)
- Half size rack cover is 23"w x 28"d x 33"h
- Breathable Mesh Covers allow products to cool quicker and without condensation
- Insul-Covers keep product warm or cold; create an inexpensive "closed cabinet"

<b>SUPRO-20-TW</b>	Protecto®, Translucent White
<b>SUPRO-14-EC</b>	Econo, Clear Only
<b>SUPRO-14-EC-½</b>	Econo, Clear Only, Half Rack Cover
<b>SUPRO-BM (COLOR)</b>	Breathable Mesh, 7 Colors
<b>SUPRO-IC (COLOR)</b>	Insul-Covers, Blue or Green
<b>SUPRO-14 (COLOR)</b>	14 oz Vinyl, Variety of Colors

### Air Curtains

- Aluminized steel housing, grill and nozzle
- All air doors include an automatic plunger activation switch and air intake filter

Stops outside drafts, flying insects and airborne pollutants and reduces energy costs.

**2-Go Pro Drive-Through Window Air Curtain**

- Blocks car exhaust from entering through the window
- For windows 24" wide and up to 42" high

**DT-24**

For 36" x 78" Door Openings. USDA & FDA Approved.

**Curtronizer® Economy Strip Door**

- NSF certified for walk-in coolers and freezers
- Low temperature reinforced strips with polypropylene hardware

**CZN-8-PR-4080**

**Polar-Pro® Swinging Door**

- Light impact, flexible PVC swinging door
- Includes universal stainless steel mounting hardware with a lifetime warranty on corrosion

**PP-C-080-3678**

**M-Series Walk-In Strip Door**

- Maintains steady temperature in walk-in coolers and freezers
- Looped strips and universal mounting hardware installs in minutes

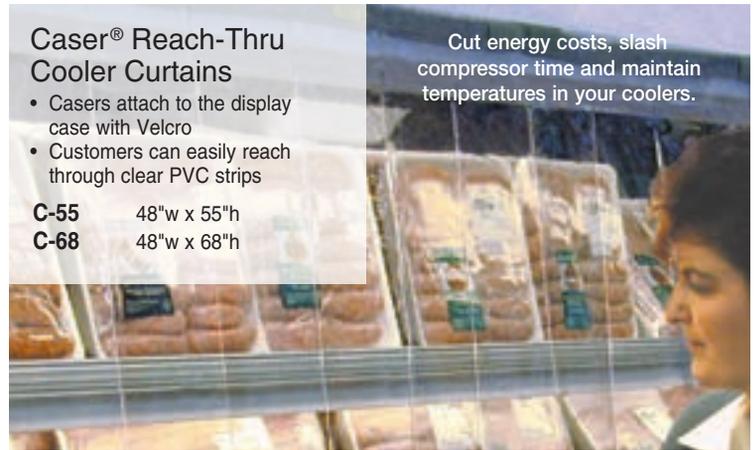

**M108-PR-4080**

### Caser® Reach-Thru Cooler Curtains

- Casers attach to the display case with Velcro
- Customers can easily reach through clear PVC strips

<b>C-55</b>	48"w x 55"h
<b>C-68</b>	48"w x 68"h

Cut energy costs, slash compressor time and maintain temperatures in your coolers.

### Pull-Down Night Shades

- 48"w and pull down to 72"
- Horizontal or vertical mount
- Clear PVC

**NS-CLEAR**

**T Series Reach-Ins**

- Stainless steel front
- Interior - NSF approved, clear coated aluminum liner and S/S floor
- Adjustable, heavy duty, PVC coated wire shelves
- Foamed-in-place polyurethane high density cell insulation (CFC Free)
- Energy efficient, "Low-E", thermal insulated glass on glass door models

**Refrigeration Units Have...**

- Oversized and balanced, (134A), refrigeration system, factory sealed and pre-lubricated for long life - holds 33° to 38°F

**Freezer Units Have...**

- Oversized and balanced, environmentally friendly R404A, refrigeration system
- -10°F temperature (air off evaporator coil, -20°F) holds frozen food and ice cream (T-19FZ maintains 0°F)

Rated #1 in the industry.

### TS Series Reach-Ins

- Stainless steel interior and exterior front and sides, with aluminum back
- Oversized and balanced refrigeration system
- Energy efficient, "Low-E", thermal glass on glass door models
- Solar, digital thermometer standard for easy visibility
- Incandescent interior lighting on solid door models
- Fluorescent interior lighting; Integrated door light (IDL) standard on glass and combination door models
- Adjustable, heavy duty, PVC coated wire shelves
- Positive seal self-closing doors with factory tested lifetime guaranteed door hinges
- Foamed-in-place polyurethane high density cell insulation (CFC Free)
- 4" diameter swivel castors standard equipment, 6" legs available
- Bottom mount compressor
- Self-contained system

### STM Series Reach-Ins

- New STM1R-1S-HC with R290 hydrocarbon refrigerant - non-toxic, climate friendly and cost effective
- Exterior - stainless steel doors & front, with matching aluminum sides
- Interior - aluminum side walls & back, stainless steel floor & ceiling
- Adjustable, heavy duty PVC coated shelves
- Positive seal self-closing doors with 120° stay open feature
- Refrigerators maintain cabinet temperatures of 33° to 38°F
- Freezers maintain cabinet temperatures of -10°F ideal for frozen foods and ice cream

Refrigerators	Doors	Shelves	HP	L x D x H*

STM1R-1S

STM2R-2S

### 55-65 DEGREES IDEAL

Store in Coolest Part of Kitchen - Do Not Refrigerate

Item	Temp	Storage
Bananas*	56-60	Open lid to avoid too quick ripening.
Potatoes	60-70	Store in dark area. Cooler temperatures cause accumulation of sugar.
Tomatoes*	55-65	Keep out of direct sunlight. Stack palettes to accelerate ripening.
Watermelons*	50-60	Store green side up. Cut pieces should be stored in the cooler.

### 45-55 DEGREES IDEAL

Store in Warmest Part of Cooler or Coolest Section of Kitchen

Item	Temp	Storage
Avocados*	40-45	Handle gently. Ripen at room temperature.
Cucumbers	45-50	Do not wash or sprinkle with water.
Lemons*	45-50	Absorbs odors easily.
Onions	45-50	Keep cool, dry, and ventilated.
Oranges*(CA)	45-50	Proper rotation will maintain good fruit.
Peppers	45-50	Very susceptible to chill damage.
Pineapple	45-50	Won't ripen after harvest. Handle gently.
Squash	40-55	Soft shell cooler than hard shell.

### 32 DEGREES IDEAL

Store in Back of Cooler

Item	Temp	Storage
Apples*	31-32	Avoid excess movement. Do not rinse.
Broccoli	32-35	Store in covered box with drain shelf.
Cabbage	32-35	Leave wrapper leaves on. Store covered.
Cantaloupe*	38-42	Ripen at room temperature.
Carrots	32-35	Do not wash until ready to serve.
Cauliflower	32-35	Store in original shipping crate, single layers. Store only briefly.
Celery	32-35	Keep covered and sprinkle with water.
Corn	32-34	Store in original cartons. Air circulation causes shriveling. Store only briefly.
Grapes*	32-40	Store in original cartons. Air circulation causes shriveling. Store only briefly.
Lettuce	32-35	Store tightly with drain shelf or colander.
Mushrooms*	34-40	Put in cooler immediately. Keep dry.
Oranges* (FL)	32-35	Needs good air circulation. Use dunnage rack.
Peaches	32	Store at 60-65 until ripened.
Pears*	32-35	Store at 60-65 until ripened.
Radishes	32	Rinse, remove tops, and drain before storing in covered containers.
Strawberries	32-35	Store in original carton. Do not wash or trim before storing. Store only briefly.

\*Food marked with an asterisk (\*) produce ethylene gas, an active plant hormone required for the ripening process. While this is good in certain quantities, some produce can be damaged by ethylene gas exposure, especially leafy vegetables. Be sure to arrange your produce carefully.

### TSD & DT Series Reach-Ins

- Adjustable, heavy duty PVC coated wire shelves
- Incandescent interior lighting (solid doors); DT models have fluorescent interior lighting on glass doors; TSD slide door models have LED interior lighting on glass doors
- Foamed-in-place polyurethane high density cell insulation (CFC Free)
- Stainless steel front
- Interior - attractive, NSF approved, clear aluminum, coved corners and stainless steel floor
- Energy efficient, "Low-E", thermal glass on glass doors
- 4" diameter swivel castors standard equipment (DT Series). 6" legs standard equipment (TSD Series) Castors optional for TSD Series, 6" legs optional for DT Series
- Self-contained system

#### Slide Door Refrigerators:

- Oversized and balanced, environmentally friendly (134A), refrigeration system, factory sealed and pre-lubricated for long life - holds 33° to 38°F

#### Dual Temperature Cabinets:

- Oversized and balanced, refrigeration system, factory sealed and pre-lubricated for long life (134A refrigerator / R404A freezer)
- True's dual temperature models are equipped with two, self-contained, independent refrigeration systems (CFC free) in a bottom mount design
- Refrigerator holds 33° to 38°F; freezer holds -10°F
- Swing doors

## STG Series Pass-Thrus

- Oversized and balanced, environmentally friendly, refrigeration system, factory sealed and pre-lubricated for long life
- HC Models use R290 Hydrocarbon refrigerant
- Food safe refrigerators hold 33° to 38°F
- Stainless steel front and door with matching aluminum sides
- Refrigeration units interior have aluminum side walls and back; stainless steel floor and ceiling
- Shelving - 3 heavy duty, PVC wire shelves per section (heated cabinets are standard with chrome shelves)
- The utility of the "STG" series pass-thru is in its ability to be a server station for cold dishes. Designed to become a central station, rear-loaded from the kitchen prep area to be front-accessed by servers
- Foamed-in-place using Ecomate, a high density polyurethane insulation that has zero ozone depletion and zero global warming potential
- Positive seal self-closing doors with 120° stay open feature
- Lifetime guaranteed door hinges
- LED interior lighting, safety shielded
- 5" diameter plate castors standard equipment; 6" legs available
- Self-contained system

### Heated Cabinets:

- Heater - stainless steel for corrosion resistance
- Powerfully provides holding temperatures of 140° to 180°F throughout the cabinet for uniform, forced-air, heating

### STG Series Roll-Ins & Roll-Thrus

- Stainless steel doors and front with aluminum sides
- Interior - attractive, NSF approved, aluminum sides and back. Stainless floor and ceiling
- Three rugged cam-lift hinges per door - lifetime guaranteed. Designed for easy product access with a full 180° open capability and stay open feature at 120°
- Heavy gauge stainless steel ramp standard for each door
- Incandescent interior lighting
- Self-contained system
- The 83¾" high cabinets accept roll-in racks (inboard caster) with maximum dimensions of 27"w x 29"d x 66"h
- The "89" cabinets accept roll-in racks (inboard caster) with maximum dimensions of 27"w x 29"d x 72"h

#### Refrigerators:

- Oversized and balanced, environmentally friendly, refrigeration system, factory sealed and pre-lubricated for long life - hold 33° to 38°F
- Energy saver switch

#### Freezers:

- Oversized and balanced, environmentally friendly, refrigeration system, factory sealed and pre-lubricated for long life
- Freezer holds -10°F (air off evaporator coil, -20°F) for the best in food preservation

#### Heated Cabinets:

- Heater - stainless steel for corrosion resistance
- Powerfully provides holding temperatures of 140° to 180°F throughout the cabinet for uniform, forced-air, heating
- Roll-thru heated cabinet designed to be rear-loaded from prep area and front accessed

**Exclusive Thaw Model Option:**

- Thaw frozen food in a controlled ambient
- Once thawing cycle is complete, the machine is working as a refrigerator so HACCP safety is absolute
- Freedom to start your cycle in the evening and it will be ready and safe once you are back at work in the morning
- No need to purchase 2 machines
- Your shock freezer can perform both functions

**Reach-In Blast Chiller/Shock Freezer**

- Full electronic control with automatic defrost & on demand defrost
- Hard chill, soft chill, shock freeze, & thawing mode with holding cycle available
- 30 programmable memory settings
- Self-closing, flush mount door heaters and removable magnetic door gaskets
- Operates on cabinet temperature by air or single point temperature probe
- Accommodates 18" x 26" & 12" x 20" pans
- Single and double trolley models available on roll-in and roll-thru models
- Standard and extra wide door models for combi oven carts
- Printer and USB port options available
- Self-contained and remote models available
- Worktop, undercounter, reach-in, roll-in, and roll-thru models available
- 3 year parts & labor warranty plus an additional 2 year compressor warranty

**Air Curtain Refrigerators**

- Exclusive Secure-Temp 1.0™ temperature monitoring for instant notification of power outages, cabinet failure, doors open, and preventative maintenance. **No monthly monitoring fees or software fees**
- Dual thermometer maintains temperatures of 38°F, 41°F or less for one hour with the door open
- LED Lighting
- Stainless steel exterior and interior
- Stainless steel rear mounted push bar handle with rubber bumpers
- Ergonomic door handles
- Flush recessed side hand grips
- Full 270° door swing with stay-open locking device
- 32.5 Cubic feet
- 15 pair adjustable stainless steel pan slides (18" - 26")
- 7¼" heavy duty casters
- Santoprene door gaskets with exclusive 2 year warranty
- 3 year parts & labor warranty plus an additional 2 year compressor warranty

Secure-Temp 1.0™ is the industry's first and only full service temperature monitoring solution for your kitchen.

- ACRS-1D-S1-STs** Solid Door
- ACRS-1D-S1-STs-GD** Glass Door

### Microprocessor Controls

- 3-digit LED display (both °F & °C)
- Water resistant housing
- High/low temperature, door open, clean condenser and power loss alarms
- Visual defrost notification/defrost lockouts
- 3 year warranty

### Spec Line Reach-Ins

One, Two & Three Section Reach-Ins, Pass-Thrus, Roll-Ins & Roll-Thru Cabinets

- Exclusive INTELA-TRAUL® microprocessor for precise temperature control
- Their proprietary air-flow system
- Balanced energy efficient system
- "Load Sure" guard prevents improper loading
- Accommodates 18" x 26" sheet pans
- A variety of sizes to choose from
- Self contained or remote
- Many solid door ENERGY STAR® qualified models available

**R SERIES** Stainless Exterior/Interior

**A SERIES** Stainless Exterior/Anodized Aluminum Interior

### High Quality G Series Reach-Ins

- Corrosion-resistant anodized aluminum sides & interior
- Reliable, energy efficient and durable with large storage capacities
- Full or half length doors with cylinder locks
- Easy-to-use microprocessor control
- Balanced refrigeration systems using either R-134a or R-404A refrigerant
- 21 1/8" wide clear door openings to accept 18" x 26" pans
- Three epoxy coated shelves per section, installed at the factory
- Sturdy, self-closing doors with a stay open feature
- One-piece stainless steel lift-up louver assembly
- Magnetic, snap-in EZ-Clean door gaskets
- Anti-condensate door perimeter heaters
- Automatic, non-electric condensate removal
- Many solid door ENERGY STAR® qualified models available

Refrigerators, Freezers, Pass-Thrus, Heated, Remote, Export 220V, & Hinged Glass Door Models Available

**Reach-Ins**

- Stainless steel exterior front and sides
- Bright white aluminum interior with stainless steel floor and coved corners
- Epoxy coated wire shelves
- Freezer doors have heating element to eliminate condensation
- Units hold full size sheet pans front to back with use of optional pan slide kit
- Electronic thermostat with external LED display
- Self closing doors that remain open at 90°
- Bottom mount compressor
- 32¾" d x 82¾" h
- 6" casters, 2 locking
- 1 year parts and labor warranty with an additional 4 year warranty on compressor

## Specialty Glass Door Merchandisers

- Oversized and balanced, environmentally friendly (134A) refrigeration system, factory sealed and prelubricated for long life.
- Energy efficient, "Low-E", thermal glass
- Environmentally friendly (134A) refrigeration system, factory sealed and prelubricated
- Self-contained system, no plumbing required
- Bottom mount compressor
- Positive seal self-closing doors
- Interior LED lighting
- See your sales representative for the latest color & sign offerings

### Glass End Cases:

- Maintains 33° to 38°F
- Exterior - durable and permanent non-peel or chip black laminated vinyl
- Interior - NSF approved, white aluminum with stainless steel floor
- Safety shielded LED interior lighting
- Adjustable, heavy duty, PVC coated wire shelves - 10 mil thick, pure grade vinyl coating
- Illuminated exterior sign panel

### Four Sided Glass End Cases:

- Exterior - high luster bronze powder coated finish
- Maintains 33° to 38°F
- Interior - NSF approved, aluminum with stainless steel floor
- Safety shielded LED interior lighting
- Adjustable, heavy duty, PVC coated wire shelves (excluding RGS series)
- RGS series has 6 non-adjustable revolving glass shelves - 5 tempered glass and 1 tempered mirrored glass for use on bottom level

### Floral Cases:

- Maintains 35°F
- Exterior - durable and permanent non-peel or chip black laminated vinyl
- Interior - NSF approved, black vinyl coated aluminum, stainless steel floor
- Baffled airflow - blossom supporting, correct temperature and humidity for longer shelf life of fresh flowers
- LED interior lighting
- Illuminated sign panel (decals on 12FC-LD models)
- Mirrored interior backs available
- Adjustable, heavy duty, black PVC coated wire shelves

**True**®

Specialty Glass Door Merchandisers

Features / Benefits

- Factory engineered, self-contained, capillary tube system using environmentally friendly (CFC) 134a refrigerant; HC models use R290 hydrocarbon refrigerant that has zero ozone depletion
- Interior - attractive, NSF approved, white aluminum with stainless steel floor
- Energy efficient, "Low-E", thermal glass doors
- LED interior lighting
- Adjustable, heavy duty, PVC coated wire shelves - 10 mil thick, pure grade vinyl coating
- See your sales representative for the latest color & sign offerings

Countertop Coolers:

- Exterior - non-peel or chip laminated vinyl, durable and permanent; or gleaming stainless steel on the food service models
- Illuminated sign panel - "True Stripe" standard (decals on GDM-07-LD/-07-S-LD)
- GDM-07-LD and GDM-07-S-LD are standard with 2½" legs; leg levelers standard for all other models shown

Convenience Store Coolers:

- Exterior - durable and permanent non-peel or chip laminated vinyl
- Available with optional legs or 2½" diameter castors (legs not available for GDM-10-LD, GDM-10PT-LD)

SINGLE DUTY DELI CASE

DOUBLE DUTY DELI CASE

CURVED GLASS DELI CASE WITH WHITE VINYL

## Glass Lid Horizontal Spot Freezers

- Environmentally friendly (134A) refrigeration - holds -10°F
- Exterior - non-peel or chip white laminated vinyl with gray mitered plastic top and lid frames, durable and permanent, also available in black vinyl exterior
- Interior - NSF approved, clear aluminum with stainless steel floor
- Tempered, hard coated, "Low- E" glass slide lid
- Interior mounted temperature monitor
- Foamed-in-place polyurethane high density cell insulation (CFC free)
- 2½" dual swivel castors standard
- Self-contained system, no plumbing required

† Requires 208/230/60Hz, single phase, NEMA 6-20R

Stainless steel exterior available - upcharge applies

### 24" Back Bar Coolers

- Oversized, environmentally friendly (134A) forced-air refrigeration system maintains cold 33° to 38°F product temperatures
- All stainless steel countertop
- Interior - stainless steel floor with 1/2" lip and heavy galvanized steel walls
- NSF approved for pre-packaged and bottled goods
- 10 mil thick, heavy duty, black PVC coated wire shelving - 2 per door
- Foamed-in-place using Ecomate, a high density polyurethane insulation that has zero ozone depletion and zero global warming potential
- Self-contained system
- Energy efficient, "Low-E", double pane thermal insulated glass doors
- Extruded, aluminum door frames on slide glass doors
- LED lighting

## Chef Bases

- Environmentally friendly refrigeration system (134A), holds 33° to 38°F
- All stainless steel front, top and sides
- Interior - NSF approved, white aluminum liner and stainless steel floor with coved corners
- Chef base top is made of one-piece heavy-duty, reinforced stainless steel with drip guard
- True's drip resistant "V" edge protects against spills
- Top is insulated to eliminate heat transfer to interior of cabinet
- 4" diameter castors standard equipment (legs available)
- Accommodates two 12"l x 20"w x 4"d pans per drawer (TRCB-52 & left side drawers of TRCB-82 accommodate three 12"l x 20"w x 4"d pans per drawer) pans not included
- TRCB-79-86 & TRCB-82-86 features extended heavy duty top for additional equipment space

## Milk Coolers

- (134A) forced-air refrigeration system holds milk 33° to 38°F
- Stainless steel or combination stainless/white vinyl exterior
- Reinforced, stainless steel interior floor
- Interior - NSF approved, clear aluminum or stainless steel
- 4" diameter swivel castors (front castors lock)
- Heavy duty floor rack
- Self-service doors feature convenient drop front and flip-up top
- Self-contained system

### Milk Coolers

- Long lasting unit made of 100% stainless steel with reinforced bottom and dunnage racks
- Easy to remove modular refrigeration system
- Lower cabinet provides easy access
- Accommodates 13" x 13" crates 8, 12 or 16 capacity or 13" x 19" crates 4, 8 or 10 capacity
- Protected gaskets not exposed to crate loading force
- Factory installed casters
- 3 year parts and labor warranty, 5 year compressor warranty

Sliding door protects gaskets

Heavy duty dunnage racks protect cabinet & promote airflow

Removable top mounted refrigeration system

TRUSTED 75 YEARS

TRUSTED 75 YEARS

Forced air cooling ensures all-day food safety with a blanket of cold air from above and below.

### Pizza/Salad/Sandwich Prep Tables

- Rugged stainless steel construction extends equipment life and minimizes service costs
- Self-contained, easy to clean unit with drain and flush valve
- Accommodates full-, half- and third-size 6" deep pans without adapter bars
- 3 year parts and labor warranty, 5 year compressor warranty

### Compact Undercounter Refrigerators & Freezers

- Rugged, all metal construction
- Superior temperature maintenance and recovery reduces shrinkage and loss
- Self-contained front breathing refrigeration system
- Drawer models hold 6" deep pans
- Available with doors or drawers
- ENERGY STAR® listed refrigerator models available
- 3 year parts and labor warranty, 5 year compressor warranty

Large interior holds 18" x 26" sheet pans.

Low maintenance, superior refrigeration. Built to last.

## Sandwich Salad Prep Tables

- Environmentally friendly (134A), refrigeration system, holds 33° to 41°F product temperature
- All stainless steel front, top and sides
- Stainless steel patented foam insulated cover
- Interior - NSF approved, clear aluminum sides and top, coved corners and stainless steel floor
- 5" diameter castors (legs available)
- Adjustable, heavy duty, PVC coated wire shelves (not available in drawered models)
- Foamed-in-place Ecomate

### Sandwich/Salad Units

- 11¾" deep, full length removable cutting board
- Standard full set (½ size) 6⅞" x 6¼" w x 4" d clear polycarbonate insert pans included (positioned in countertop). Also accommodates 6" and 8" deep pans (drawered models will not accommodate 8" deep condiment pans)

### Mega Top Sandwich/Salad Units

- 8⅞" deep full length removable cutting board
- Standard (½ size) 6⅞" x 6¼" w x 4" d NSF approved clear polycarbonate insert pans included. Also accommodates 6" and 8" deep pans (except M-C model). (TSSU-27-12M-B standard with nine ⅙ and three ⅓ size pans; TSSU-27-12M-C standard with twelve ⅙ size pans); positioned in countertop
- Back hood and lid are removable for cleaning

### Dual Sided Units

- Food prep access from both sides
- Standard with 11¾" white polyethylene cutting board

### Drawered Units

- Space to accommodate one 12" l x 20" w x 6" d pan per drawer (drawer pans are not included). (48" models accommodate one 12" l x 18" w x 6" d food storage box or one ⅓ size and one ½ size pan per drawer; not included)

### Elite Series™ Sandwich/Salad Prep Tables

- Designed to perform in high ambient kitchens with lids open all day
- Exterior has stainless steel finish on front, sides, top, door(s) and grille
- Removable hood and insulated lid assembly are made of stainless steel
- Pans are cooled from the bottom eliminating the necessity of air blanket
- Accommodates 6" deep pans, 4" deep polycarbonate pans included
- 10" deep reversible cutting board
- Maintains product temperatures between 36° to 38°F
- Self-closing, field-reversible doors with 120° stay open feature
- CFC & HCFC-free foamed-in-place polyurethane insulation
- Locking divider bars
- Heavy duty pan liner
- 3 year parts and labor and an additional 2 year compressor warranty
- 29½" d x 41¼" h
- 115V

Models available:  
 Standard top prep table,  
 mega top prep tables,  
 cutting top prep tables,  
 drawer units,  
 Dual-sided prep tables,  
 Condiment stations,  
 See-thru lid prep tables

Available options:  
 Crumb catchers, overshelf kits, lift-off covers,  
 bottle holders, shelf organizers, ada models

SPE48-12

### DP Series Deli/Pizza Prep Tables

- Stainless steel exterior front, sides, top and grille
- 16 gauge stainless steel top
- Anodized aluminum interior to prevent corrosion
- Self-closing doors on cartridge style hinges with 120° stay-open feature
- Insulated lids to ensure constant temperature and reduced energy consumption
- Raised refrigerated pan rail accommodates 6" deep food service pans
- 19" deep reversible cutting board, standard
- Adjustable epoxy coated steel wire shelves (two per section)
- 3" casters • Balanced refrigeration system to operate 36° to 38°F
- Refrigeration system utilizes ozone friendly R134a refrigerant
- Heavy duty pan liner
- 36¾" d x 43¾" h
- 115V

### Undercounter & Worktop Refrigerators & Freezers

- Stainless steel exterior front, sides and top
- Anodized aluminum interior to prevent corrosion
- Self-closing doors with 120° stay open feature
- CFC and HCFC-free foamed-in-place polyurethane insulation
- Worktops feature 2½" thick S/S top, Undercounters feature ½" insulated sub-top, 4" high removable backsplash (Worktops units)
- Balanced refrigeration system operates at 36° to 38°F
- Freezers operate at 0°F
- Adjustable epoxy coated steel wire shelves, standard (two per section)
- 6" casters • Refrigerators utilize ozone friendly R134a refrigerant
- Freezers utilize ozone friendly R404A refrigerant
- ENERGY STAR® qualified (UCR27A, WTR27A, WTR48A)
- 115V

Available options:

Cutting board tops, 16 gauge top, stacking collars (UCR), shelf dividers, overshelf kits, door locks, 3" casters, 6" legs, seismic legs, glass doors, led lighting for glass doors. Foamed-in-Place (FIP) and Flate Top (FLT) models available

## Low-Profile Refrigerated Equipment Stands

- Heavy duty stainless steel top with perimeter marine edge
- Stainless steel ends and exterior drawer fronts
- High density environmentally friendly, Kyoto Protocol Compliant, Non ODP (Ozone Depletion Potential), Non GWP (Global Warming Potential) polyurethane foam insulation throughout unit
- Base interior cabinet is cooled with mullion style coated blower coil(s) mounted between each door/drawer section for even air and temperature control
- Interior refrigerated base cabinet section to maintain 36° to 40°F
- Digital thermometer
- Full Extension Plus Drawer system holds 12" x 20" x 4" deep hotel pans
- When ordering, specify make, model and depth of cooking equipment sitting on the equipment stand
- Height of surface for setting equipment is 25½"
- Environmentally friendly HFC-404A refrigerant
- 3 year parts and labor compressor warranty
- Available in Remote and Self Contained

 **Delfield**

## 18PTB Series Refrigerated Pizza Prep Tables

- Top, sides and ends are constructed of 18-gauge stainless steel
- Stainless steel removable hinged covers
- Units are mechanically cooled with die-stamped openings to accommodate 12" x 20" hotel pans or fractional pans
- Pans are recessed 2" to provide proper cooling
- High density polyurethane foam throughout unit
- On/off switch and rail on/off is located behind the louver
- Environmentally friendly HFC-404A refrigerant
- 3 year parts and labor standard warranty

## 4400 Series Refrigerated Prep Tables

- Durable, rugged stainless steel sides, top and front
- Patented air screen ensures product stays cold without drying it out
- 100% front breathing, which allows the unit to be pushed against a wall or built into a cabinet or an existing line up
- Features Delfield's exclusive ABS interior (on sides) and is backed by a limited lifetime warranty
- ½ size pans and adapter bars for top opening included
- Salad top refrigerators are standard with 10" wide, dishwasher safe polyethylene cutting board treated with antimicrobial agent
- High density foamed in place polyurethane keeps energy costs low
- One epoxy coated wire shelf standard, installed per door section
- ACT solid state electronic control
- Environmentally friendly R404A refrigerant
- 3 year parts and labor standard warranty

 **Delfield**

### FX Series – Iceless Seafood Storage Systems

- Extend shelf life by 2-3 days
- Quality is improved as fish stays fresher without water
- No more smelly fish-file drawer systems and no ice to carry

Store seafood without ice at a perfect 32°F.

### 9000W Series – Cold-Wall Prep Table

- The hottest kitchens require the best system to maintain 41°F
- Forced-air cooled tables just can't keep up
- Breading can be extremely messy and ruin forced air cooled evaporator coils
- Cold-wall cooled recessed pans assure the best performance available in a standard model
- Thermostatic control allows you to adjust the temp to your needs

Handles Your Hottest & Messiest Needs.

MODEL 9260W (60" 4-PAN) SHOWN  
ALSO AVAILABLE IN 9148W (48" 3-PAN) & 9272W (72" 5-PAN) MODELS

### Vertical Prep Tables

- When you need to add more capacity in food pan holding, go vertical to take full advantage of valuable space
- Cold-wall cooled double-tier pan rails
- Individual rail thermostatic control, on-off switch for overnight energy savings when you empty the rail and drains in each rail for easy cleaning
- Available in 48" and 72" lengths

8148D

8272D

Space costs money – so go vertical to increase pan holding capacity!

## Super Deluxe Series Sandwich Salad Units

- Durable stainless steel interior and exterior
- Cooling system holds 33° to 39°F
- Self-contained system
- Cold air compartment
- ½ size, 4" deep pans included
- 3 year parts and labor warranty and additional 2 year warranty on compressor

Stainless steel construction  
guarantees the utmost in cleanliness  
and long product life

## Bottle Coolers

- Oversized and balanced R-134A (CFC free) refrigeration systems
- Positive guided forced air cooling system chills bottles on top first
- Super Deluxe (SD) models boast a stainless steel exterior (galvanized steel back and bottom)
- SB models are attractive wear-resistant black vinyl exterior
- Heavy duty polyethylene coated dividers
- Built-in removable bottle cap opener and cap catcher
- Side mount compressor unit
- Holds 33° to 38°F
- 3 year parts and labor warranty
- 5 year compressor warranty

Back Bar Coolers

- Oversized, environmentally friendly (134A) forced-air refrigeration system maintains cold 33° to 38°F product temperatures
- Attractive, wear-resistant laminated heavy duty black vinyl exterior, except stainless steel models
- Heavy gauge all stainless steel countertop
- Interior - stainless steel floor with 1/2" lip & heavy galvanized steel walls. NSF approved for pre-packaged and bottled goods
- 10 mil thick, heavy duty, black PVC coated wire shelving - 2 per door
- Foamed-in-place using Ecomate, a high density polyurethane insulation that has zero ozone depletion and zero global warming potential
- Self-contained system

Pass Thru Coolers:

- Designed for convenient rear loading and front access for serving

Glass Door Coolers:

- Energy efficient, "Low-E", thermal glass doors
- Extruded, aluminum door frames on glass doors
- LED lighting

Direct Draw Coolers:

- 3" diameter stainless steel insulated beer columns
- Fan motors direct large volume of cold air into draft columns
- Designed to accommodate a variety of beer kegs

## Direct Draw Beer Dispensers

- Oversized environmentally friendly (134A) forced-air refrigeration system for maximum performance
- Provides ice cold products 33° to 38°F (normal ambient conditions)
- Attractive, wear-resistant laminated heavy duty black vinyl exterior
- Heavy gauge all stainless steel countertop
- Interior - stainless steel floor with ½" lip & heavy galvanized steel walls
- Interior - NSF approved for pre-packaged and bottled goods
- 3" diameter stainless steel insulated beer columns
- Available with optional legs or 2½" or 4" diameter castors (TDD-1/-S: 4" dia castors standard equipment; 2½" dia castors and legs not available)
- Each cabinet designed to accommodate all types of beer kegs

### Club Top Beer Dispensers

- Easy to reach refrigerated storage area for chilled beer or wine glasses
- Anodized aluminum glass rail provides convenient storage area for glasses on top
- One, 10 mil thick, heavy duty, black PVC coated wire shelf standard (glass storage area)
- Convenient easy-glide lid
- Flip-lock to secure stainless steel lid

## Horizontal Deep Well Bottle Coolers

- Oversized, environmentally friendly (134A) refrigeration system
- Provides ice cold products 33° to 38°F - very fast pull-down capacity
- Positive guided, forced air cooling cools bottles on top first
- Attractive, wear-resistant laminated heavy duty black vinyl exterior
- All stainless steel countertop and lids
- Interior - long lasting heavy duty galvanized steel, NSF approved for pre-packaged and bottled goods
- Huge capacity requires minimum floor space
- Large evaporator coil virtually runs length of cooler for efficient balanced cooling
- Foamed-in-place, Ecomate
- Heavy duty 10 mil thick pure grade PVC coated adjustable bin dividers for maximum storage use
- Rugged built-on removable bottle cap opener and cap catcher
- Self-contained system
- Available with optional legs or 3" or 2½" diameter castors
- Available with optional ratchet locks for added security

<b>GBF837-727R/TS</b>	Holds 2 Roll-In Racks, Up to 40 - 12" x 20" x 2½" deep Pans/Rack or 20 18" x 26" Sheet Pans/Rack

Racks and Pans are sold separately

Conveniently placed,  
touch-screen control panel.

When it comes to modular cold storage, it's easy to see why ThermalRite is an industry leader.

### Walk-In Coolers and Freezers

Custom designs – indoor, outdoor, angular, rectangular or any combination are all available in a variety of finishes and in varying thickness of four, five or six inches. We serve the warehouse, food service, institutional and environmental industries with walk-in coolers and freezers. With seamless panels up to 30 feet in length, we are ideal for warehouse applications and long spans. Our modular construction allows for easy remodeling, relocation or expansion.

## One-Piece Walk-Ins – Making the Best Use of Outdoor Space

INTERNATIONAL COLD STORAGE

ICS one-piece walk-ins are particularly suited to outdoor locations, freeing up your store's interior for valuable food preparation or sales floor space. Seamless fabrication, factory built and fast track installation provide a convenient and cost effective alternative to traditional bricks and mortar construction

### Built Smart

- Standard sizes from 4' x 6' x 6' to 14' x 50' x 9'
- Cost effective alternative to panel or bricks and mortar construction
- Cooler, freezer, ambient and combo models
- Temperature ranges from -30°F to +80°F
- Seamless construction using non CFC urethane foam insulation
- Interiors customized to specific applications and temperatures

### Built To Last

- 4", 5" and 6" wall thicknesses and up to 8 $\frac{3}{4}$ " floor thickness
- Fully weatherproof, including Alaskan snow roof load rating
- Seismic "D" rating
- 180 mph hurricane rating
- Code compliant to US and Canadian standards
- \* 20 year structural and materials' warranty
- 5 year door warranty

### Simple Installation

- Complete factory assembly and testing greatly reduces on site installation costs
- Ready-to-run refrigeration for immediate start-up
- Single point electrical connection simplifies installation
- Fast track installation - typically in 3-5 hours
- Skilled and experienced installation teams
- Easily relocated, should the need arise

### Finishes

Our standard walk-in exteriors are finished with a tough stucco embossed metal, with a factory baked-on polyester coating that provides years of maintenance free service. We also offer a wide range of alternative finishes, including a variety of material and colors, as well as architectural panel, brick or stone effect finishes to meet municipality requirements.

### Kold Locker™ Walk-Ins

**STANDARD MODELS AVAILABLE TO SHIP THE SAME DAY!**

- Cooler or freezer models
- CFC Free HFC-245fa polyurethane insulation
- Exclusive Capsule Pak™ refrigeration system
- Flush Coil, 100% usable interior space
- Automatic condensate vaporizer – no DRAIN LINE required on indoor units
- LED light fixture
- Three heights: 6'7" & 7'7" with floor, 7'4" floorless
- Capacity from 77 cu ft to 1,000 cu ft
- Indoor or outdoor models
- Installation that is fast and easy
- Sizes from 3'6" x 6' to 10' x 14'
- Three temperatures: 35°, -10°F, -20°F
- Exterior finish: corrosion resistant stucco embossed coated steel
- 26", 30" and 36" wide self closing doors available on most models

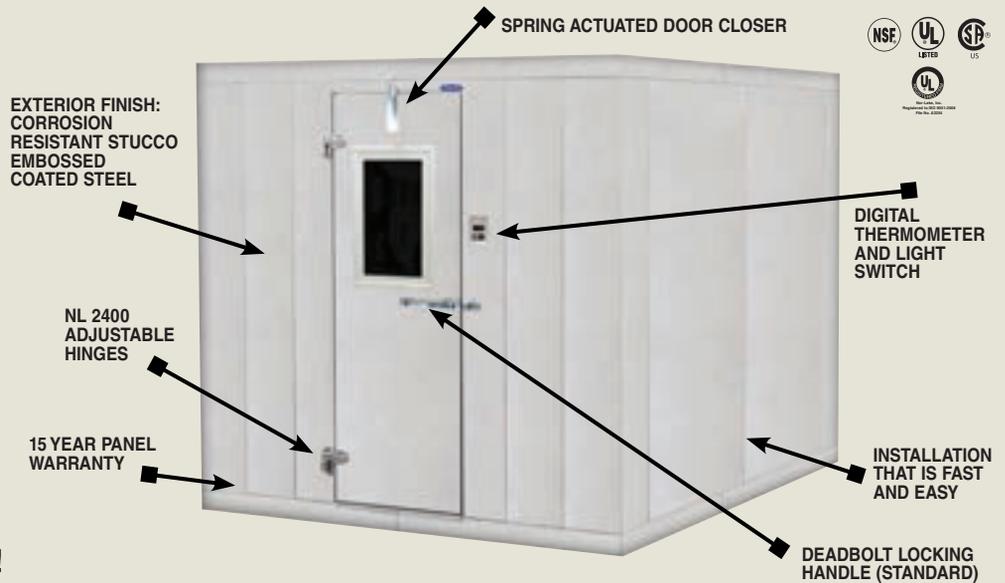

**Contact your sales representative for further details.**

### Fast-Trak® Walk-Ins

- Unlimited lengths in 1' increments!
- Available in widths of: 6', 7', 8', 9', 10', 11' & 12'
- Five heights: 6'7", 7'7" & 8'7" with floor; 7'4" & 8'4" floorless
- LED light fixture
- FRP threshold
- Remote Refrigeration Systems in stock for 5 day shipment
- Cooler, freezer or combination cooler/freezer models
- CFC Free HFC-245fa polyurethane insulation
- Installation is fast and easy
- Indoor or outdoor models
- 26", 30" or 36" wide self closing doors available on most models

**Available in Unlimited Lengths – Ships in 5 Days!**

### Fineline™ Custom Walk-Ins

- Designed to your specifications
- Coolers, freezers and combination cooler/freezers
- Modular panel construction for easy installation, expansion and relocation
- 26 gauge corrosion resistant stucco embossed coated steel
- .100 smooth aluminum interior floor (on models with floor)
- Floorless models provided with NSF approved vinyl sealers
- Full 4" thick panels foamed-in-place with HFC-245fa polyurethane insulation which is CFC & HCFC Free, Zero Ozone Depletion!
- Heavy duty, extruded aluminum load bearing door frame jamb
- Deadbolt locking handle
- LED light fixture
- Fifteen year panel warranty

**Contact your sales representative for further details.**

## Complete Line of Refrigeration Systems

**M-SERIES**

**B-SERIES**

### M-Series Condensing Units

- Specially designed to function in high ambient temperatures
- Factory assembled on a galvanized steel angle leg base
- Components are prewired and factory mounted
- Sizes range from ½ hp to 6 hp
- Also available in hermetic, compliant scroll and semi-hermetic

### B-Series Condensing Units

- Factory assembled on a galvanized steel channel leg base
- Sizes range from 3 to 40 hp
- Components are prewired and factory mounted
- Also available in hermetic, compliant scroll and semi-hermetic

## PS Series Parallel Refrigeration Systems

- Multi-compressor refrigeration unit
- Matches refrigeration capacity to actual load for energy savings
- Durable galvanized steel housing; also available in stainless steel

## Glycol Parallel Refrigeration Systems

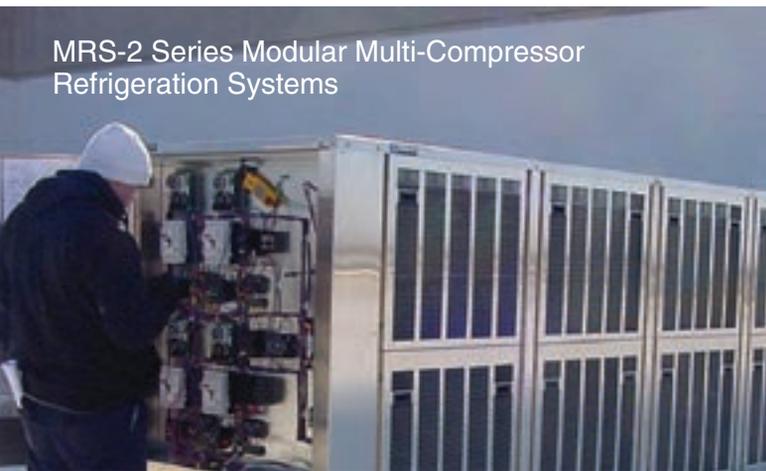

- Highly efficient refrigeration system
- Digitally controlled for greater precision, diagnostics, data logging and monitoring
- Reduces energy consumption by 25%

## DRS Series Dual-Compressor Refrigeration Systems

- Two compressor system
- Multi-circuited condenser coil designed for 110°F ambient
- Scroll compressors for freezer applications up to 5 hp
- Hermetic compressors for cooler applications up to 3 hp
- Durable galvanized finish; also available in stainless steel

## MRS-2 Series Modular Multi-Compressor Refrigeration Systems

- Remote refrigeration system removes the heat produced by multiple refrigeration systems for a cooler kitchen and store
- Outside system reduces noise level and extends the life of the equipment
- Galvanized steel housing can accommodate up to 16 modules

## PRS-2 Series Packaged Refrigeration Systems

- Combines a condensing unit and evaporator coil into one unit
- High efficiency fan motors
- Condensate evaporator pan on indoor units

## E-Series Evaporator Coils

- Ready to mount in position
- Available with air (off cycle) defrost, electric defrost or option reverse cycle defrost
- Includes properly sized expansion valve and room thermostat
- Energy efficient EC motors
