Explore Together, Thrive Forever!

In all classrooms, the TCC Educator team emphasizes self-awareness, understanding individual uniqueness, and offering abundant praise. The TCC curriculum is inspired by the Reggio Emilia philosophy, promoting a self-guided approach where children freely express themselves through activities like painting and drama. This curriculum is flexible, hands-on, and primarily interest-driven. Children are encouraged to take the lead in their learning journey, with teachers valuing their passions, interests, and thoughts. At TCC, we ensure a holistic development, preparing every child thoroughly for kindergarten.

Welcoming Miss Jai

Hello, I'm Jae Dingle, and I'm originally from Baltimore, Maryland formerly a UB Campus assistant teacher. I have a strong passion for teaching and enjoy engaging with children in a fun and educational manner. With almost six years of experience in this fulfilling field, I am on a quest towards my Child Development Associate certification, specializing in Preschool. I'm absolutely thrilled to be part of The Child Campus crew and can't wait to meet all the fantastic students and their awesome families!

"If students can feel the past, they'll remember it forever."

We begin the School Year "ALL ABOUT ME"

Please submit a family photo of your child to foster empathy and collaboration in the classroom and assist with lesson planning. Let's work together for success!

Students are encouraged to bring a book of their choice from home to share with their classmates, fostering a love for reading and peer engagement.

Lesson plans tailored for every age group, personalized for each classroom, guaranteeing that all children enjoy and engage in their learning experience.

Parents/teachers should have completed assessments for all children to ensure appropriate classroom placement for optimal development. Parent/teacher conference by 10/15/25

The Reggio Emilia approach includes seven essential components:

- Viewing the child as an active participant in their own learning.
- Emphasizing the importance of the environment.
- Promoting collaboration among teachers, parents, and children throughout the learning journey.
- Valuing documentation as a tool for reflection and growth.
- Acknowledging time as a flexible variable in the educational process.
- Appreciating aesthetics and the role of artistic expression.
- Highlighting the significance of social interaction and communal activities in learning.
