

Dearest TCC Community,

Welcome to our screening and monitoring program. Because your child's first five years of life are so important, we want to help you provide the best start for your child. As part of this service, we provide the Ages and Stages Questionnaires, third edition (ASQ-3), to help track your child's development. You will be asked to answer questions about some things your child can and cannot do. The questionnaire includes questions about your child's communication, gross motor, fine motor, problem solving, and personal social skills.

In addition to this service, we provide the Social-Emotional, Second Edition (ASQ-SE-2). In the first few years of life, it prepares your child to be confident, trusting, curious, and able to develop positive relationships with others. You will be asked questions about your child's behaviors and social-emotional growth.

If any of the questionnaires show some possible concerns, we will share some ideas and activities that you can do at home to encourage your child's development. We can also talk about information and resources that can help; alongside we will provide the next questionnaire at the appropriate time. Information will be shared with other professionals or agencies only with your written consent.

We look forward to your participation with our collaboration with Help Me Grow WNY at The Child Campus

Our Very Best,  
Team TCC
