

### **VOTING RESULTS November 12, 2013**

The results of the voting by the residents of Country Estates East on the centralized water and sewer issue were released at last night's November 11, 2013, monthly meeting. Ballot results indicated that the majority of residents voting favored the provision of both water and sewer services by the Monroe Water and Sewer District.

The district trustees then passed the following resolutions; a resolution for the Monroe Township Water and Sewer District to move forward with the project, a resolution for the district to obtain a planning loan from Monroe Savings and Loan, and a resolution for the district's engineering firm, Sands Decker, to proceed with the development of the project design and formal bid.

The district anticipates the bid being released in the March, 2014, time frame. Total time required for the project to be completed is unknown at this time but completion within an 18 to 24 month time frame, beginning now, is a reasonable estimate.
