ID CARD SOFTWARE

EasyBadge is the most advanced plastic card printing software on the planet. With its easy to use interface and intuitive design, it is perfectly suited for end users who are printing for the first time or the more advanced user who are looking to print ID or membership cards in high volume.

With all versions of EasyBadge there are no long setup times or paper manuals to follow, simply use the built-in setup wizard and you can be printing stunning cards in under 60 seconds.

Unlike other card printing software Easy Badge comes complete with its own app. Taking a camera around with you is a thing of the past as the app allows you to capture a new photo from your mobile or tablet device, add or edit records, search the database and upload the new or edited record from any location.

Easybadge Lite

EasyBadge Lite is the solution that SME's, small clubs and organisations have been looking for as the software stores up to 100 records in the database. After that a record will be deleted as another card is printed and stored.

Easybadge Pro

EasyBadge Pro gives you unlimited records it is ideal for larger corporation staff ID cards systems and clubs or organisations wishing to quickly and easily issue members with stunning plastic membership cards.

Easybadge Enterprise

As well as unlimited records this version also has the ability to encode NFC and contactless smart cards. It is suited towards University/College student ID card issuance, large corporation staff ID cards requirements and travel concession card issuance systems.
