VIRTUAL STEM FAIR FOR STUDENTS – 2021

(Free Event)

Website: **stemfairs.com** YouTube Channel: **STEM Explorers**

WHO AM I?

My name is **Shreekar Earanti**. I am a rising Junior at Adlai E Stevenson High School. I am organizing this Online STEM event and will mentor through the whole process with the presenter. I have presented and participated in many Students Involved In Technology conferences and maker fair in the past years and wanted to bring that experience virtually to others during these unprecedented times.

WHAT IS THIS?

- Online STEM fair for students
- A technology conference/science fair virtualized
- Students can prepare slides/media and then present about their topic
- Audience can ask questions
- Audience can be anyone
- Dates and timings will be posted on my website

WHY SHOULD YOU PARTICIPATE?

- Continue passion for STEM even during Covid-19, online
- Develop speaking skills
- Better your presentation skills
- Improve your confidence

WHAT CAN YOU PRESENT?

- Science Projects
 - Demonstrate Science Experiment
 - Talk about a Science Project
- Technology/Engineering Projects
 - Show a STEM item, LEGO EV3, Sphero bots, how drones work, etc
 - Talk about new technological innovations, or topic self driving, AI, etc
- If you don't have an idea, still fill out the form, I can help you one-on-one find an idea

WHO IS THIS FOR AND WHO CAN PRESENT?

Anyone who is a 6th-8th grader can sign up to be a presenter

Everyone else can watch the fair as an audience member!!
