Spectrosil products from Krystal Technology

Restriction of Hazardous Substances (RoHS) Declaration – Directive 2011/65/EU and its amendment (EU) 2015/863

Dear Sir or Madam,

Thank you very much for your interest in our Spectrosil products.

Our company complies with the national and international laws, regulations and standards. Therefore, we are also monitoring the RoHS regulations and the phase-out of exemptions.

Based on the information about the ingredients of our Clear Fused Quartz products we can state that all Clear Fused Products are RoHS compliant.

Pb-, Cd-, Hg- and Cr(VI)-compounds, Polybrominated biphenyls (PBB), Polybrominated diphenylether (PBDE), Di(2-ethylhexyl)phthalate (DEHP), Butylbenzylphthalate (BBP), Dibutylphthalate (DBP) and Diisobutylphthalate (DIBP) are not components of the recipe or are below the maximum allowable limits dictated by the RoHS directive.

This certificate is valid till end of 2025 or if there are any significant changes in the regulation. In the latter case we would inform you actively before end of the year.

Please do not hesitate to contact us if you have any questions.

Best regards

Mark Robson
Environmental, Health and Safety Manager
