

### President's Message

By Doug Korb

WOW, have you seen our golf course? Yes, it's wet in a few spots, or the rough may be a little long on the day you play, but the bottom line is that it's fantastic. Try to remember a couple of years ago when some of the greens were dying, the fairways were scorched, and the bunkers were similar to concrete. Although not everything is like Augusta it's surely not like it was two years ago. A strong tip of the cap to **Juan** and his entire maintenance crew. Job well done guys!

You're likely to see someone from the crew when you play. If so, be sure to tell them about the good job they're doing or at least give them a thumbs up.

As an added bonus, remember that the better the course is in July the more playable it should be in January and February.

Below is an explanation as to how you can post Hole-By-Hole on your GHIN app. **It's easy, it's quick, and most importantly, it's accurate.** Please review this process and let me know if you have any questions.

## HAWK'S LANDING

Next time you're in Hawk's Landing be sure to check out the display of all of our Men's Club awards. In addition to the awards, we've included the **Hole-In-One** plaque for the golf course. If you have a Hole-In-One while playing the course, be sure to let someone in the Pro Shop, or any current Board Member, know and we'll gladly add your name to the plaque.

## Player Profile

As I've mentioned before, our club is always looking for members to step forward and volunteer to assist the Board, or the golf course. We're still in search of someone to carry on our 'Player Profile' section of the newsletter.

It's a role that will require less than an hour a month, and will give all of us insight into our fellow players lives beyond golf.

Please let any Board member know if you can help us here.

## Monthly Cartoon – Video

If you're like me (admit it, you are) you've had some tough lies on the golf course. Therefore, maybe this is a shot you should practice, if not to improve your score, then to impress your friends.

**Remember, the most important shot in golf is your next shot.**

See you in the short grass,

## The Hawk's Eye, July 2024

From the Handicap Chair:

A major part of the Handicap Chair responsibility is to verify that scores are posted each week as part of the weekly tournaments. Over the course of the last couple of years, it is pretty consistent what errors occur in posting.

1. Forgetting to post. It seems we just getting busy and forget. If possible, try to post your score when you are in Hawk's Landing or before you leave the course.
2. Incorrectly adjusting your score or not adjusting your score at all for the maximum number of strokes allowed for your course handicap index. The majority of the cases involve those players who post their total score vs. those players who post hole-by-hole using the GHIN app.
3. Occasionally, times when a discrepancy occurs with hole-by-hole posting is when the wrong score is posted on a hole. As we all know, sometimes you just thought a 4 is a 6 or you pressed the wrong number on the keypad. Please verify the total score matches your scorecard total and/or verify your scorecard total is correct.
4. Attached is a Maximum Score Table specific to the Redhawk Golf Course. It lists the maximum score you can post for any hole based on your course handicap. You just look up your index for the day and read across to any hole in question. This may help when entering your scores.
