No planned green fee increases are planned at this time for 2025. Discussion was held around improvements for Hawk Landing which is limited inside due to limited space in what can be done. The patio area is an opportunity to provide expanded seating and some form of shade from the sun.

Michael Goodbody and Marlon Perry brought everyone up to date on our SCGA Team Play for 2025. They will co-captain our efforts going forward.

Doug notified the members that we are having preliminary conversations with some members of the Temeku Men's Club about possibly joining our club.

Doug opened to membership for comments what they would like to see. The offering of a Social event with wives, partners others was not greeted with much enthusiasm so this appears to be a non-starter.

The most prevalent discussion was the idea of a "Road Trip" to Primm (closed) or Laughlin for a 2-day tournament. Discussion item for the board. It was noted that this would be substantial effort for the board or whoever organized and event of this type.

Skip Davis brought up a request to post the winnings for the year by each player. Mike Re agreed to post the winnings on the Redhawk Men's Club web site.

Last, a raffle was conducted and approximately \$400 worth of merchandise was awarded to members in attendance.
