The Times-Su

Trail clean-up effort a 'success'

Around 16 hearty volunteers donned work clothes and gloves on Sunday, Nov. 8 to lend a hand cleaning up a portion of the Yough River Trail between Collinsburg and Smithdale. The hard-working crew collected a substantial amount of trash along the new hiking-biking trail. Pictured above, as the willing laborers walk the trail and adjacent areas, a pick-up truck tows a trailer which the volunteers filled with a variety of debris. The group attempted to separate recyclable

items. Shown below, the group gathers around a sizeable pile of debris collected during the afternoon's labors. The Fall Trail Clean-Up Day was sponsored by the Yough Trail Committee in association with PA CleanWays. Also assisting were crews from Rostraver Township and West Newton Borough, who later helped haul away the trash from the recreational trail.
