

I hope you're excited about your upcoming Holland America cruise! Your journey is fast approaching, and I'm pleased to send over your travel documents along with some helpful reminders to ensure you have a smooth and enjoyable trip.

Your Important Travel Documents!

I've attached your **cruise booking confirmation**, your **boarding passes**, and other pertinent travel information. Please take a moment to confirm that each passenger's **first and last name matches exactly** what is printed on your valid passports. This is very important!

Regarding passports, most countries require them to be valid for at least **six months after your scheduled return date**, so please verify yours meets this requirement. Additionally, suppose any of your destinations require a **travel visa**. In that case, you *must* ensure you have a valid visa for your travel dates. It is your responsibility to verify all visa and passport requirements for every destination you will be visiting, including valid dates.

Complete Your Online Check-In Promptly!

This is a critical step! If you have not yet completed the **online check-in process**, please do so immediately. Completing this beforehand is essential to avoid any delays when boarding your cruise or your flights (if flights are included in your package). This will help ensure a smooth process! Please download the Holland America Navigator app ASAP and complete the online check-in.

Smart Travel Money Tips!

When traveling internationally, I strongly recommend paying with a **credit card or cash**. It is generally advisable to **avoid using a debit card** for international transactions to protect against potential issues. You can conveniently exchange currency at most major airports before you depart from the U.S.

Smooth Sailing from the Airport!

For all flights, please remember to arrive at the airport at least **3 hours early**. This allows ample time for check-in, security, and any other preparations before your flight. Airlines occasionally adjust their schedules, leading to changes in flight times, numbers, and even aircraft types. While we do our best to monitor possible flight changes, airlines may not always promptly communicate these adjustments to us. We recommend downloading your airline's app and linking your airline confirmation to stay informed about any updates, just as we do. If you receive a flight update on the airline app, do not hesitate to reach out to us with any questions.

By downloading your airline's app and linking your flights, you'll receive possible alerts for any changes and a valuable tool to monitor your flights during travel.

Please send us your airline frequent flyer and TSA PreCheck numbers. However, please ensure those stay attached to your reservations the day of your flights, as they can be dropped off with any schedule changes.

Here's a key packing tip: always keep your **passports, any necessary medicines, and other essential items in your carry-on baggage. Do NOT pack them in checked luggage!** You'll want these items readily accessible.

Please do not hesitate to reach out if you have any other questions, either before or during your trip. I am happy to assist however I can.

Have a fantastic cruise and safe travels!
