

The countdown is on, and your Norwegian Cruise is just around the corner!

And you know what that means? It's time to complete your final online check-in, and you can start this process 21 days before your Cruise. The good news? It's quick, easy, and will have you feeling one step closer to that blissful vacation. You must log in to your Norwegian Cruise Line account using the NCL app and finish the check-in process. The online check-in process will close the week before departure, and if you wait, you may miss out on important information needed for our Cruise.

The sooner you tackle this task, the sooner you can sit back, relax, and get excited for your upcoming voyage. Imagine - no last-minute scrambling or missing the deadline to complete the required online check-in.

But wait, there's more! While you're getting ready, don't forget to double-check a couple other important details:

1. Make sure your passport is valid for at least 6 months beyond your return date. This is a non-negotiable cruise requirement, so don't get caught off guard.
1. Ensure your legal first and last name on your cruise documents exactly matches your passport. Any discrepancies could cause major headaches at embarkation.

Remember, I'm here to help with any questions or concerns you may have as you prepare for your Norwegian adventure. Don't hesitate to reach out - I'm just a phone call or email away.

Let's get you ready to set sail in style!
