

Your NCL Norwegian Cruise Line documents are attached to this email. I have also included some travel tips and printable luggage tags to ensure your bags are ship-shaped and ready to go.

Remember, your passport is your key to international travel! Passports must be valid for six months after your return date, and the name on them must match your travel documents. So, take a moment to look over your documents to ensure everything's in line. This simple step can ensure a smooth journey without any hiccups. If you have questions about passport validity dates for the countries you will visit, let us know as soon as possible.

Here's a packing tip: Your rooms are usually ready around 1:30 p.m. It's a smart move to pack your swim gear in your carry-on. Why? So you can kickstart the fun and dive straight into the ship's amenities while your room gets its final sparkle. This way, you can start enjoying your cruise the moment you step on board.

On departure day, it's important to aim to arrive within your allocated time slot. This helps to ensure a smooth embarkation process, allowing you to start your cruise on a stress-free note.

If flights are included with your cruise, please make sure you arrive for all flights a minimum of three hours before departure and make sure your passports and other important documents are in your carry-on luggage and not your checked luggage.

Plastic is fantastic when traveling – credit cards are recommended when traveling abroad. They're your shield against fraud and better exchange rates. But remember, a little cash can go a long way for those off-the-grid moments and for thanking the fantastic crew with additional tips for excellent service. Also, remember that NCL may temporarily hold your credit card for the time you board until about ten days after your cruise returns.

We do not recommend using debit cards while off the ship. However, using a debit card for onboard purchases should be fine; just try not to use debit cards when you are visiting different countries.

Time zones can be tricky, so double-check local times and the ship's departure schedule before you wander away at each port. We wouldn't want to continue the journey without you!

Your cruise is just around the corner, and while we know you'll make unforgettable memories, don't forget the simple things – like keeping your passport safe and slipping a bottle of sunscreen into your bag to outsmart that Caribbean glow.
