

As you prepare for your upcoming trip to the United Kingdom, I want to ensure you have all the necessary information to avoid any entry issues upon arrival.

Electronic Travel Authorization (ETA) Requirement

Travelers visiting the UK for up to 180 days — whether for tourism, visiting family and friends, business, or short-term study — must obtain an Electronic Travel Authorization (ETA). This also applies to cruise guests and land vacationers.

Duration & Validity

- Maximum Stay: 180 days
- ETA Validity: 2 years

Important: Please apply for your ETA well in advance of your departure date to allow sufficient processing time. The ETA is issued electronically once it has been approved.

How to Apply

Complete the ETA application form at: <https://www.gov.uk/eta>

Passport Requirements

The ETA does NOT replace your passport. You must carry a valid passport in conjunction with your Electronic Travel Authority (ETA). We recommend that your passport be valid for at least six months after your travel dates and have sufficient blank pages for international stamps.

Please refer to <https://www.gov.uk/eta> for additional information.

Thank you for booking your vacation with me.
