

## TGCA Registry Reassessments

Initial assessments are carried out on photos submitted by the owner/breeder to determine which Registry the animal falls into.

In some circumstances, it can become apparent that the animal may need to be re-assessed.

If you wish to apply for re-assessment the following rules apply:

- You will be required to attend a scheduled TGCA Evaluations day (to be booked in advance), the cost for this inspection will be £75 and if a re-issued passport is required the cost will be an additional £50. Please note if the application is successful, the change of registry will be in place from the date of evaluation only and will not apply retrospectively
- if the reassessment is required for welfare reasons, photos and justification must be sent to Head Office for review - if on review the assessment is approved by TGCA Head Office a fee of £50 will be payable for a reissued passport
