Quickly finding a passion for real estate after moving here from NY in 2004 Kristin’s near 20 year journey working behind the scenes in various roles has given her a comprehensive understanding of the field, market & local area.

Her YouTube Channel with over 10,000 subscribers highlights the top dining spots, shops, events & locations that make Punta Gorda the unique community it is.

That coupled with the high traffic location of her office at Fishermen’s Village provides significant marketing advantages for showcasing properties.

Experience has taught her that authenticity attracts your tribe by treating people with honesty, kindness, and compassion.

She’s the asset you want to have when buying or selling property in Charlotte County, FL
