

# HMPV Rapid Test

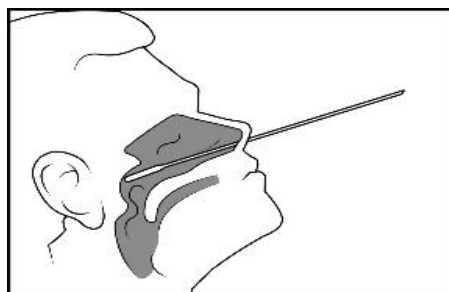

The Biopanda HMPV Rapid Test is a lateral flow immuno-chromatographic assay for the qualitative detection of human metapneumovirus antigens present in nasopharyngeal swab samples.

This test is intended to assist in the diagnosis of HMPV infection, in conjunction with other tests.

## Test Features

- Easy to use
- Rapid results in 15 minutes
- Positive or negative results
- Storage Temperature: 2-30°C

Please note: All results must be considered with other clinical information available
