**We will need adequate electricity.** The cotton candy machines plug into a standard 3-prong outlet, 120V, 15 amps. We ask for a dedicated rated outlet so that we don't short out the power which can happen easily if too much heavy machinery is plugged into the same outlet—sometimes it can happen even if heavy equipment is plugged into the same WALL or side of a room. Spin Fluff will not be liable for any electrical issues, or unfortunate circumstances that arise from electric-related things such as the music turning off/"crashing the party". Double Spin will require separate outlets for each machine.

**Please Initial that you have read and understand this risk: \_\_\_\_\_**

I further agree to be responsible for any damages that arise to Spin Fluff's property or my own property from any guest/attendee and release responsibility to the above listed parties. Furthermore, I have read and agree to adhere to the Rules and Regulations Included In this contract/application page.**

**I understand that any deposits to hold the date/ space are non-refundable, including circumstances of inclement or extreme weather as dictated by OSHA or any National/Local Weather Service (In weather related circumstances we will do our best to work with you to reschedule another date/time but can not guarantee future availability). I also acknowledge that Spin Fluff reserves the right to cancel this contract and/or refuse business at any time for any reason (especially if it is deemed unsafe by a Spin Fluff or other event staff or personnel), even if the job/party/event has already started. This is for the safety and well-being of Spin Fluff's spin-tendants and guests. I acknowledge that Spin Fluff may cancel this contract at any time for any reason and that either a full, partial or NO refund will be given to the Depositor at our discretion.**
