H.E.A.R.T., Inc.

Helping Every Animal Receive Treatment, Inc.

Every pet deserves care — not just the ones whose families can afford it.

H.E.A.R.T., Inc. exists because too many loving pet owners face an impossible choice: pay a vet bill they can't afford, or lose a family member. We provide affordable, quality veterinary care so pets stay healthy, families stay together, and fewer animals end up in shelters.

The Problem

- Every day, our small team hears from more families than we can help.
- A treatable illness, emergency surgery or a routine surgery shouldn't mean a pet is surrendered or put down.
- Shelters are overwhelmed — and much of it is preventable with access to basic and lifesaving veterinary care.

Our Impact This Year

In 2026 so far, H.E.A.R.T., Inc. 's small team has shown up for animals in every kind of need — from routine spay/neuter surgery to complex, specialty procedures many families couldn't have afforded anywhere else.

...and countless other lifesaving treatments. Every number on this list is a pet who's alive, healthy, or pain-free today because a donor made it possible.

Your Gift, In Action

Every dollar goes directly toward keeping pets healthy and families together:

Gift	What It Covers
$75	A cat neuter
$100	A cat spay
$175	A dog neuter
$250	A dog spay
$1,500	A specialty, lifesaving surgery

Can't cover a full procedure alone? Every gift — even $25 — adds up. Multiple donors often combine to fund a single surgery for a pet who has nowhere else to turn.

Why It Matters

Every animal we treat is one less that ends up in a shelter, surrendered, or euthanized for a solvable medical reason. Your support directly reduces shelter intake and gives families a real alternative to giving up their pets.

We're Honest About the Need

We're a small team doing everything we can, but the need far outpaces our capacity. Your donation doesn't just fund a treatment — it helps us keep our doors open to as many pets and families as possible. Your donation also supports expansion and increased capabilities over time. We are currently based in Anne Arundel County, Maryland, but we have had families bring us their pets from numerous bordering states and we receive calls for help from across the nation. The NEED is currently well-beyond our capacity.

Give a family the chance to keep their pet.

Give an animal the care it deserves.
