CONSTRUCTION TRADES ENGLISH (CTE) - COURSE SCHEDULE - ESL FOR THE CONSTRUCTION INDUSTRY:

COURSE DESCRIPTIONS:

Course 001.1

Basic Communication Skills at the Construction Jobsite:

In this course students will learn basic communication skills in English at the construction jobsite and workplace.

Topics will include but are not limited to:

How to talk about and identify the various procedures & aspects of a project

How to talk about and describe one's own duties and skill set

How to talk about safe practices at the construction site

Depending on the experience and knowledge level of the participants the time spent on each of the 3-topics listed above may be extended or shortened.

A pdf of course materials will be emailed to all registered participants.

All content will be presented in English. A CEFR Level of B1 or greater is required to attend this class.

Course 001.2

Basic Communication Skills at the Construction Jobsite:

In this course students will learn basic communication skills in English at the construction jobsite and workplace.

A continuation and strengthening of the content from Level 1:

How to talk about and identify the various procedures & aspects of a project

How to talk about and describe one's own duties and skill set

How to talk about and identify safe practices at the construction site

Depending on the experience and knowledge level of the participants the time spent on each of the 3-topics listed above may be extended or shortened.

A pdf of course materials will be emailed to all registered participants.

All content will be presented in English. A CEFR Level of B1 or greater is required to attend this class.

Course 002.0

Preparation for the USCIS Interview and Civics Exam:

In this course students will learn how to fill out Form N-400, prepare for, and practice for the USCIS Interview and the Civics Exam.

This course follows a prepared curriculum provided by the United States Citizenship and Immigration Services (USCIS). This course will include the opportunity for all attendees to practice with the teacher for the USCIS interview.

A pdf of course materials will be emailed to all participants.

All content will be presented in English. A CEFR Level of B1 or greater is required to attend this class.

Course 003.0

Reading and Comprehension of Plans and Specifications:

In this course students will learn how to interpret and present the details in plans & other specifications.

Content includes reading plans and specifications of various details. The content can be specific or varied to the needs and interests of the attendees.

A pdf of course materials will be emailed to all participants.

All content will be presented in English. A CEFR Level of B1 or greater is required to attend this class.

REQUIREMENTS FOR ALL CLASSES:

All courses will be presented on Zoom. Minimal proficiency in Zoom is necessary to attend. There will be time allotted in the first class meeting to review and help students with the features of Zoom. To participate in all classes tablets and larger devices/computers are preferred; attendance via a mobile phone is acceptable.

We provide an online assessment using the CEFR Assessment Tool in order to determine levels of proficiency.

INDIVIDUAL CLIENTS: All interested students should contact us directly to learn more about course requirements and fees. We provide an online assessment using the CEFR Assessment Tool in order to determine levels of proficiency.

CONSTRUCTION TRADES ENGLISH

www.constructiontradesenglish.com

info@constructiontradesenglish.com

Construction Trades English provides online English classes and content for the construction and related industries and to all sizes of organizations.

We can provide content specific to you organization's and industry's needs!

With online classes we can service the Globe! 🌐

For more information EMail us at info@constructiontradesenglish.com

We offer online classes and content in two formats:

1: ENGLISH CLASSES FOR CORPORATIONS AND ORGANIZATIONS

We offer online English classes and content specific to the construction and related industries. We can provide your organization with company-wide classes and content that would be accessible to the members of your Team. And classes would be accessible only to your Team. These classes and content include one-on-one training. The upcoming Fall 2025 Term will begin in October

Classes specific to your organization can be scheduled for any time of the day, for as many weeks as needed, and can begin at any time of the year.

Sample Content Includes:

- English for Construction Workers and the Building Trades
- Communication at the Jobsite
- Comprehension of OSHA Specifications
- Comprehension of Drawings, Plans, and other Specifications
- Business English
- All Levels of English-Language Skills.
- Customer-Service Skills

2: ENGLISH CLASSES FOR INDIVIDUAL STUDENTS

Do you work in the construction industry?
Would you like to improve your English-language skills?

The upcoming Fall term will begin in October 2025. We will be offering online English classes and content specific to the construction and related industries.

These individual classes will be open to all and will include the same classes and content that are listed above to individuals working in the construction and related industries. These classes are scheduled for the Eastern Time Zone in North America. These classes will meet once or twice per week and are scheduled for six to twelve weeks.

All industries and services have their own unique vocabulary and terms. We know from experience that communication on the construction and building jobsite is more than basic conversation.

Providing English Classes for Construction Workers and the Building Trades is essential for not only meeting a project's specifications but is also crucial for maintaining a safe and secure jobsite.

For more information EMail us at info@constructiontradesenglish.com

This employee benefit will help all who participate to communicate better at work and within their community.

If your company has a need for specific content we can create and design content for ESP
(English for Specific Purposes)

Please contact us for more information regarding our course and content offerings.

For United States clients we also offer:

Preparation for the U.S. Naturalization Exam.
