Q : Where should I store my JTT stocks?

A : We suggest storing JTT in a cool, dry place. Its recommended to be stored in chiller, JTT is better be consumed in fresh and cold condition.

10	<p>Q : Is it okay to take multiple supplements at once?</p> <p>A : If you find that more than one product works well for you, you can definitely combine them! However, we usually suggest trying one product at a time for at least 7-10 days. Some women prefer to take a combo of products but the only downside to that is it makes it more difficult to determine which product is impacting the positive effects the most.</p>
11	<p>Q : Can I take JTT without my doctor's recommendation?</p> <p>A : Since it is a supplement, you can take it without your doctor's prescription. However, we recommend that you check with your physician before taking it. Although our product is safe to use, please talk to your doctor, especially if you're pregnant. You should also consult your physician if you are about to undergo surgery or had an operation.</p>
12	<p>Q : Is JTT safe?</p> <p>A : It is extremely safe. JTT has been consumed by people around the world. We urge you to follow the instructions we have provided and avoid going beyond what has been the recommended dose. Make sure that you check the ingredients and don't take it if you are allergic to one or some of the ingredients. Our KKM No Approval under Traditional Medicine is MAL18026060T.</p>
