Dear Don

Just a short note to say thank you for your professionalism and attention to detail on the projects we have worked together over the past few years. The photographs of the University's commencement, STEM and student events were terrific. At all the events, you covered the shot-list precisely as discussed in our planning meetings. The photographs were very clear, and the coverage and angles were perfect.

Don, I appreciate that you pay attention to details and take the time with our senior executives to ensure the atmosphere is relaxed and the subjects are at ease. This makes a huge difference since most events are chaotic, and many executives are not comfortable being photographed.

We used the photographs in several ways, including on our website, in promotional materials, and on social media. The pictures have added to our ability to tell the University's story in a compelling manner.

Don, I wish you continued success, and I will contact you as new projects arise. Please feel free to use me as a reference for future projects.

Thanks again.

Regards.

To Whom It May Concern:

I am pleased to provide a letter of recommendation for Donald Barge Photography. As a candidate for State Representative in 2013, I chose to work extensively with Donald Barge because of his professionalism and critical eye for image and photographic presentation. On all projects, I found him very professional, very organized, and always willing to provide assistance.

My photography needs were for a diverse set of campaign marketing materials; including online, print media, and digital advertisements. This was a brand new venture for me, and Donald was involved in structuring the environment for the marketing, public relations and design phases from the onset. The studio took it a step further and traveled to additional locations for promotional events and other announcements related to the campaign.

Donald Barge Photography's dedication was and is essential to the ongoing work of my office. He was very perceptive at listening to our ideas and what we were looking for, and somehow capturing the image just right. He was incredibly patient, which was a tremendous asset in this process. His work can be seen in promotional campaign literature, as well as documents produced to inform my constituents.

Donald Barge Photography's staff are very personable, hard-working, self-motivated, and creative. I would recommend them for any job they pursue.

Sincerely,

Carol Ammons
