YES	NO	During the last week have you <u>needed</u> less sleep than normal, perhaps feeling rested and
		energetic with only 2 or 3 hours of sleep a night?
YES	NO	During the last week have you been talking more than normal, talking faster than usual,
		having others complain that they can't get a word in edgewise or can't understand you very
		well?
YES	NO	During the last week have your thoughts been racing or jumping from one idea or topic to
		another faster than you could keep track of?
YES	NO	During the last week has it been difficult for you to focus on one thing at a time, so much so
		that little things seem to distract you?
YES	NO	During the last week has your activity level increased, so that you are more busy than usual,
		working harder, making new plans, socializing or playing more, or having more sexual
		activity than usual?
YES	NO	During the last week have you been more impulsive than usual, doing things that are
		uncharacteristic of you or that are more risky than usual, such as driving too fast or
		recklessly, spending too much money, illegal or immoral activities, etc.?

YES NO HAS THERE BEEN ANY **PAST** TIMES IN YOUR LIFE WHEN SEVERAL OF THE ABOVE SYMPTOMS EXISTED TOGETHER FOR A **CONTINUOUS PERIOD OF ONE WEEK OR MORE**?

SECTION TWO Think back to the **past 2 weeks (14 days)**

YES	NO	During the last two weeks, for <u>most of the time</u> have you been feeling more sad, down, blue,
		depressed or moody than usual?
YES	NO	During the last two weeks have you felt more easily angered, more short-tempered, more
		irritable than usual, perhaps arguing more or shouting more?
YES	NO	During the last two weeks have you lost your usual interest in activities you typically enjoy,
		such as hobbies, work, TV, reading, sports, socializing?
YES	NO	During the last two weeks have you had a change in your appetite? Have you lost or gained
		weight without dieting?
YES	NO	During the last two weeks have you had trouble falling asleep, staying asleep, sleeping
		restlessly, getting enough sleep, or even sleeping too much?
YES	NO	During the last two weeks have you lost energy, been more fatigued or tired than usual?
YES	NO	During the last two weeks have your thoughts been sped up or jumbled, have you been restless,
		fidgety, unable to sit still? Or have you been thinking, moving and talking more slowly than
		narmal?
YES	NO	During the last two weeks have you been feeling worthless or excessively guilty, more down
		on yourself or thinking negative thoughts about yourself?
YES	NO	During the last two weeks have you had trouble thinking or concentrating, trouble making
		decisions more so than usual?

YES	NO	Have you felt very suspicious or paranoid, afraid that you were under surveillance, being
		followed, being poisoned, or that people were conspiring against you?
YES	NO	Have you thought your spouse is having an affair or cheating on you?
		What evidence do you have?
YES	NO	Have you felt you had done some terrible thing, so that it constantly bothers your conscience
		and you feel that you need to be punished for it? What was it?
YES	NO	Have you noticed your thoughts were mixed up, scrambled, disorganized, or that they would
		suddenly cut off in mid-stream?
YES	NO	Have you sensed your thoughts were being taken away or put into your head by an outside
		person or group?
YES	NO	Have you had very strongly held ideas and beliefs that seemed so unusual or odd to other
		people that you hardly ever mention it anymore? As examples, firm beliefs like you are
		secretly married to an important person, that you are a powerful religious figure, that some
		people in the government are actually robots?
YES	NO	Have you felt that something very awful or disgusting was wrong with your body or your
		appearance, even though other people don't notice it?
		What is it?
YES	NO	Have you had times where you walked into a room and thought people were talking about you
		or laughing at you? Have you seen things in newspaper or on TV that have special messages or
		meaning only for you?
YES	NO	Have people thought you were acting odd, where you froze up and didn't move or speak for
		hours, kind of like a statue?
YES	NO	Have you or other people noticed that it was difficult for you to start anything or get
		motivated to begin anything, so that you would sit and stare for long periods of time, not
		talking, not showing any emotion or facial expression?
YES	NO	Since these symptoms began, have you had more and more trouble doing the normal things in
		life, such as working, socializing, or taking care of your family or yourself?
