IX. AVIATION AND COMMUNITY

Gilbert Airpark is unique in the freedom provided aviators to enjoy the sport/avocation of flying. This is accomplished by careful management of risks through skill, care, constant attention, and relentless focus on maintenance and safety factors so that the most minor of accidents can be avoided or minimized.

No set of rules alone can ensure community safety and preserve the spirit of flying to our daily lives. Pilots/aircraft owners must critique their own behaviors to keep all safe in the community. Their responsibilities include all homes, property, each and every community member – adults and children, visitors, personal property, pets, and wildlife.

In addition, safety here in our unique setting must be everyone's personal mission: flyers, non-flyers, adults, youth and children. Safety must be a part of everyone's attention on a continuing basis. Therefore, these bylaws hereby assign all individuals of this community a special role as a safety activist for the merging of aviation and community.

X. APPROVALS

- A. Bylaws:** Changes and/or amendments to these Bylaws may be made by an affirmative vote of at least 75% of the existing members at a special meeting for that purpose, and proposed bylaws must conform to the most recent set of approved covenants. Owners may vote at such a meeting in person or by proxy.
- B. Routine Business:** Routine business matters of the Association may be approved by an affirmative vote of a simple majority (51%) of members of the Association who are voting in person at a regularly scheduled meeting.
- C. Substance:** The substance of any proposed amendment to these bylaws must be announced to the membership in writing at least 7 days prior to the meeting in which it is brought to a vote. This notification may occur by electronic or other means.
