

Yacht & Boat INSURANCE

Many of us enjoy our leisure moments with family and friends on the water here in Florida. We are fortunate to have lakes, rivers, lagoons and the Atlantic Ocean easily accessible for us to enjoy and explore from our local communities by yacht or boat.

As you know, there are hazards to consider when boating. The right insurance can protect you, your family, friends and your yacht or boat.

Exceptional Coverage

Physical Damage coverage: provides protection in the event of a collision with a submerged object or another boat.

Liability coverage: is for bodily injury or damage to the property of others.

Personal Property coverage: protects personal property on the boat, including such items as your clothing, stereo system, cameras, fishing equipment and other personal items.

Towing and Assistance coverage: to transport your boat to a repair facility when it's inoperable and you're stranded.

Emergency services such as gas delivery for boats and roadside assistance are also available.

Yachting/Boating Knowledge

Insurance is only one aspect of protection while enjoying the boating experience. Boating requires a great deal of knowledge for what you may encounter while out there on the water. Weather, boat handling in the waterways, and maintenance are a few important areas that you will want to be knowledgeable of. As the owner and captain, you bear the responsibility of ensuring a safe trip for your family and friends. Knowledge and experience help you gain greater enjoyment of the sport. Excellent educational and certifications programs are offered by US Coast Guard licensing and Chapman School of Seamanship.

Hurricane Plan

Hurricane and tropical storms are also part of our Paradise here in Florida. It's important to have a plan to protect your yacht or boat when such storms threaten our area. Securing your boat on land or in dry storage facilities that can withstand high winds is important to have ready in advance. Be prepared, be safe & be happy.
