

Tom

I wanted to pass along to you about the knife "Double D" that we purchased from you last year, and the outcome that we have seen.

The logo on the knife was outstanding and the leather sheaths were the king of all gifts, when we handed the hunters this knife they were blown away, especially after watching us use them and how we never put them down.

Thank you so much for this gift idea it has been the best ever. If anyone ever has any questions on this knife please give them my number and I will let them know they can not go wrong with this knife.

Here is just a brief history of the knife and what I have done with the ONE knife that I call "sister"

She has skinned 58 hogs
She has skinned 37 deer
She has skinned 23 rams
She has skinned 13 axis deer
She has skinned 12 coyotes
She has skinned 8 black bucks
She has skinned 4 fallow deer
She has skinned 3 red stag deer

And she is still going..... has never been touched with a sharpener nor has she ever been sent back to you for any reason.

Love this knife !!!!

Kyle
