

Product Brief

9" Carver

Item #1723

Carve with confidence.

Delivers smooth, even slices every time.

A holiday essential.

Why the 9" Carver?

- No kitchen is complete without a carving knife. Rely on Cutco's 9" Carver for slicing larger cuts of meat, like holiday turkey or bone-in ham. Pair this with Cutco's Carving Fork for a complete Carving Set.
- Makes carving even the largest turkey worry-free. The clip point allows you to get close to the bone to easily disjoint wings and drumsticks. The long 9" blade with its Double-D® edge makes smooth, even slices.
- From everyday to the holidays, this knife is unsurpassed for carving whole turkeys, bone-in ham and large roasts. The long 9" blade with its Double-D® edge makes smooth, even slices and the ergonomic handle gives you control without fatigue.

Use to:

- Carve large roasts, turkey, leg of lamb, chicken, baked ham and pork loin.

“I don't use an electric carver at Thanksgiving, thanks to this little beauty. I have the full-size Carver, and I use it for any big meat meals in my house. I can carve up a soft roast without pulling it apart, and make nice, thin, lunch-meat-worthy slices of chicken breast.” - Matiekonck in Staten Island

American-Made Knives.
Guaranteed Forever.

Design, Material & Craftsmanship

Clip point

Allows more control and intricate cutting.

High-carbon, stainless steel

Holds a sharp edge while maintaining its beauty. Resists rust and corrosion.

Mirror-polish finish

An extra step that aids in corrosion resistance and adds to lasting beauty.

Exclusive Double-D® edge

A series of three recessed cutting edges make a smooth, clean cut with less pressure. Points protect cutting edges to retain sharpness.

Hollow-ground edge

Cuts food evenly without drag and allows food to easily fall away.

Ergonomically designed handle

Universal fit for large or small, left or right hands. Comfortable handle helps reduce fatigue and provides a sure grip.

Full-tang, triple rivet construction

Provides strength and balance with the blade extending the full length of the handle. The nickel silver rivets securely attach the handle to the blade. Rivets will resist pitting and tarnishing, and are flush with the handle for comfort and durability.

Handle material

Highly engineered thermo-resin. Will not crack, chip or absorb moisture and is sanitary. Dishwasher safe.

Handle color available in Classic, Pearl or Red. Note: Red handle available for the 9" Carver and 6-3/4" Petite Carver only. Blade can be engraved.

9" Carver #1723

Blade length: 9"

Overall length: 14-1/2"

Weight: 4.3 oz.

Special Manufacturing Steps

Stamped

The blade is blanked from high-carbon, stainless steel to exact shape and precise dimensions.

Heat Treat Process

A unique three-step process of extreme heat, deep freezing and tempering that makes the blade hard yet flexible, stain resistant and able to hold a sharp edge.

High-Speed Buffing

The edge is buffed in this extra step, taking it from sharp to razor sharp.

You can find the 9" Carver in the following Cutco Kitchen and Gift-Boxed Sets:

“It is my go to knife for everything and I love it. So I had to get one for each of my children as I know they will use it all the time, too. Bought my son the smaller one last year and he said Mom we have knives, but now it is his go to knife and he uses it all the time.”
