and so it begins...

It was Taryn-Lee's vision and passion for female empowerment that brought the United Chicks Association to life.

There are countless women out there – entrepreneurs, small business owners, and women-led companies – striving to showcase their unique talents in this vast world of ours. They compete against well-known, often global, brands and beloved influencers and celebrities with millions of followers, who are opening businesses everywhere.

We all know at least two or three women trying to get their nail or lash business off the ground or those who are successful but still scraping by each month. There are also incredibly talented individuals whose skills surpass even the most high-profile CEOs, yet they don't get a second glance because they lack a matric certificate or a degree.

If each of us promotes and supports even one of our connections, imagine the power we could bring to women-owned businesses.

Picture this: through membership fees and donations, we can collectively boost another woman's business potential by funding a much-needed course to kickstart her career.

Let's stop imagining and start doing! The power lies within us – it's #UnitedChicksAssociation. We invite you to become a member, donor, or volunteer and join us in empowering women together!
