

**Dear Valued Client,**

RPh Innovation has been working hard to make sure our team is doing everything we can to pass along information and inform our clients about what we can do to stop pharmaceutical companies from moving forward to limit 340B pricing to health centers. Josh Jorgensen from the National Rural Health association has posted a copy of the letter, linked below, that was drafted by Representatives McKinley (R-WV) and DeGette (D-CO) to HHS Secretary Azar asking him to help with the attacks on the 340B Drug Pricing program. This letter was signed by more than 200 Members of the House of Representatives showing tremendous support to the cause. Thank you to all who have reached out to your legislators to make this happen. Together we can continue to support patients across the country continue to get affordable healthcare.

**Warmest regards,**

**Kathleen Johnson RPh**  
**Chief of Operations and Compliance**  
**RPh Innovations, LLC**
