

Important message to all of our Customers! \*Clinton Location Only\*

Here at Hometown Pizza we are implementing some new procedures to minimize risk of Covid-19 within our walls and community. Our customers Health & Safety is our top priority!

Our dining room will be closed and we will be Take-out and Delivery only until further notice.

We will not serve any fresh items such as produce or any item that doesn't go through our piping hot 550 Degree oven – No salads 😞, subs and calzones that are finished with fresh veggies, will come without them.

We highly recommend ordering online and paying with a credit card. This will greatly limit any person to person contact and any exchange of bills. For delivery orders you can add the tip amount into the special instructions area, we won't require a signature at the door if you do. Just a simple hand off and go. We are even willing to do zero contact porch drop offs if you prefer. Simply add it into the special instructions or let the Hometown Team member know while placing your order.

We will have extra Delivery Drivers on hand to handle the increased load. All delivery drivers will be sanitizing their vehicles before and during their shift!

We have advised all of our staff to stay home or seek treatment if they are showing any symptoms.

I will also be verifying any recent travel out of the area, or any possibility of exposure. If either exist, that employee will be asked to stay home.

All surfaces will still be wiped down consistently! Additionally, after every pick up order the counter and door handles will be wiped off. Tables, chairs, prep coolers, etc. we will be sanitizing everything consistently throughout each day! As always, we will continue to practice proper hand washing procedures and follow all health department guidelines.

Stay safe out there everyone!

Tyler Hoelzer
