You might think you know exactly what you want-until you start trying on different looks! Trying on is half the fun!

Choose your Glam Squad!* *Please review the FAQ page on our website for changes to guest policies, etc.*

Keep in mind, the more individuals you invite to your initial appointment, the more opinions there are-which can sometimes be overwhelming! We recommend inviting guests who's opinion you truly value. If your party will be larger than 4 guests, please notify us in advance to discuss appointment options for larger groups.

Set a budget.

There is nothing worse than falling in love with a gown that is out of your price range. Be sure to communicate your requirements with your consultant to ensure you are trying on gowns that fit your style-AND your budget!

Bring your essentials (bra, slip, shapewear, shoes, etc).

It's a good idea to wear undergarments that are similar to what you will wear for the big day, and also, to bring shoes with a heel height most closely matched to what you think you will be wearing. This will help to determine what alterations might be necessary.
