

120 to Landfall: 2.0 Tabletop Exercise | April 27, 2022

OBJECTIVES

1. Demonstrate the ability to establish lines of communication and facility points of contact used by healthcare stakeholders for emergency notifications and information sharing.
2. Demonstrate the capability for information sharing to ancillary healthcare providers (e.g., dialysis, home healthcare, assisted living, etc.), emergency management agencies, and regional emergency coordination points prior to, and during an evacuation.
3. Demonstrate the implementation of a policy, plan, or procedure implementing decision-making triggers used by healthcare stakeholders for executing the safe evacuation or shelter-in-place plans during an emergency.
4. Determine the resource needs for executing a full facility evacuation during an emergency incident and demonstrate the process for obtaining those resources.
5. Demonstrate the ability to prioritize the emergency evacuation process of patients when transportation resources are limited.

During the conference calls participants may be asked to conduct assessments for patient/resident transportation needs, transfer plans, sheltering needs, and to produce documents to track the evacuation of their facilities. Please bring any documents requested during the conference call to the exercise on April 27, 2022. Virtual participants will be able to share these documents virtually. To protect the privacy of patients/residents do not use patient names, simply patient/resident and a number (ex. patient 1, resident 37)

DATE AND LOCATION

Date: April 27th, 2022

Location: Crystal Coast Civic Center
203 College Cir., Morehead City, NC
28557

120 to Landfall

Coastal Evacuation Exercise

REGISTRATION

Please register at
www.surveymonkey.com/r/J82Z88Q
for the exercise

BACKGROUND

The goal of the exercise is to address any identified gaps, incorporate the continuing care community, and continue to improve healthcare response capabilities across both regions. The exercise will help further validate the *North Carolina Coastal Region Evacuation and Sheltering Standard Operating Guide* as well as organizational plans and procedures.
