

LIST OF GRADUATES

The accomplishments of these men and women have been exceptional in many fields. Medicine, the ministry, business, agriculture, homemaking, the trades, teaching, music and science all have outstanding Lynden graduates. To enumerate all these individually would require more research, time and finances than are available to us. Our two Rhodes Scholarship winners should be mentioned because there are only 32 of these a year in the United States and fewer than 1800 since the program started. Dows Sturmann, LMS 1927, and Kenneth Love, LMS 1951, graduated from Oxford University, England.

The following lists the graduates from the Lynden High School. The listing is by years and alphabetical with last names first.
