

L A Z B O Y<sup>®</sup>  
HOT TUBS

# Comfort

has reached a new level.

[lazboyhottubs.com](http://lazboyhottubs.com)

# We took a great idea... and added hot water.

La-Z-Boy® invented the recliner chair in 1928 and they've been perfecting it ever since. But progress in comfort doesn't need to be limited to the indoors and we have now applied our innovation and quality standards in the development of the perfect hot tub.

A La-Z-Boy Hot Tub that provides everything you need to relax, rejuvenate and relax in complete comfort. So let us show you how easy it is to turn your dreams of the ideal backyard sanctuary into reality.

**What are you waiting for? Jump in..**

# To your good health!

Hydrotherapy consists of three main healing components; heat, buoyancy, and massage. Together, they create an exceptional experience that is both relaxing and incredibly healthy.

Using a La-Z-Boy® Hot Tub on a regular basis provides physical health benefits that go much deeper than just relaxation and pleasure. Water is so pure and simple, yet it can do the most amazing things. Whether you are experiencing joint or muscle pain, have trouble sleeping, or are just plain stressed out, spending time in La-Z-Boy Hot Tub can provide therapeutic benefits for just about everyone.

## Reduce Stress, Headaches and Improve Sleep

Warm water massage stimulates the body to release endorphins that can significantly reduce stress, La-Z-Boy Hot Tubs hydrotherapy jets also dilate blood vessels to help prevent headaches. In addition, when it comes to falling asleep faster and getting a good night's sleep, the National Sleep Foundation clearly states that *"soaking in a hot tub before retiring to bed can ease the transition into a deeper sleep."*

## Relieve Muscle and Joint Pain

In recent years the use of hydrotherapy hot tubs by athletes has skyrocketed and La-Z-Boy Hot Tubs are now set to lead the way in offering these benefits to a broader audience! A popular sports magazine said it best: *"Your skin and muscles loosen and relax from the increased blood circulation"* adding that, if muscles are injured: *"A soak in a hot tub increases blood flow to the injured area, bringing nutrients to help repair the damage."*

## Soothe Pain Caused by Arthritis

Warm water hydrotherapy treatment in a well-designed hot tub is believed to help those with pain caused by arthritis. It is also thought that hydrotherapy is one method of using water to help treat arthritis with the soothing warmth and buoyancy of the water making it a safe, ideal environment for relieving pain.

## Spend More Time with Family and Friends

How many leisure activities targeted at relaxation can be readily enjoyed at any time, day or night, without ever leaving home? The answer is practically none!

A recent survey of swimming pool owners revealed that many only enjoy their pools a few dozen times a year and jetted bathtubs are also used very infrequently!

That's because pools and bath tubs located in colder parts of the country can't be enjoyed in the spring, autumn or winter and they take too much time and preparation before they can be used.

In contrast, a La-Z-Boy Hot Tub is easy to use and is designed to consistently maintain the water temperature set by the user. As a result, it's always ready and waiting to be used for fun and relaxation - 24 hours a day, 7 days a week, 365 days a year!

## Help Manage Diabetes

Researchers have reported that hot water and hydrotherapy including the regular use of a hot tub can help control diabetes. It has also been known to lower blood pressure and significantly reduce blood sugar.

A Colorado based study recently revealed that diabetes patients who soaked in a hot tub for 30 minutes a day, 6 days a week found their average blood sugar level dropped by 13%!

## Year Round Fun

A recent survey on usage revealed that owners have fun in their hot tub an average of 150 times a year! Hot tubs are designed to maintain the temperature you set them at and as a result your hot tub is always ready and waiting for you.

Setting the water temperature in a La-Z-Boy Hot Tub is so easy. While lowering the temperature on a La-Z-Boy Hot Tub helps beat summer heat, there are few moments in life that come close to the sheer pleasure of being surrounded by warm bubbling water on a crisp, cold night. So, don't worry about the temperature dropping, the sun going down or the seasons changing. Slipping into a La-Z-Boy Hot Tub is always a year round fun and wonderful experience.

# Comfortable Seating

The Science of Sitting Underwater.

For almost 100 years, La Z Boy® has built its reputation on comfortable seating. We've taken everything that we learned in the furniture industry and created one of the most comfortable hot tub product lines in the world.

La-Z-Boy Hot Tub seating and lounge designs provide exceptional comfort, relaxation and hydrotherapy benefits and are the perfect way to share time with family and friends. By optimizing seating ergonomics, our advanced designs deliver comfort and enhance the delivery of our Comfort Zone Hydrotherapy Massage System.

Our unique Reclina-Seat balances the weight and position of the user to create additional comfort. Our engineering team has also discovered that ideal buoyancy is achieved when reducing the right amount of weight on other parts of the body.

Our no float, ergonomically designed seating perfectly balances and positions the user. You can also expect to receive an outstanding massage without being lifted out of your seat. Multi-level seating that fits the natural shape of your body also provides lumbar and back support creating an exceptional underwater seating experience.

Recessed jets and generous foot wells maximize the comfort and roominess of our hot tubs. Enjoy with friends and family and be confident that you will have enough room for everyone and not feel crowded. To top it off, our Comfort Rest Pillows support your head and neck to provide maximum comfort when relaxing in your seat.

*Please visit [lazboyhottubs.com](http://lazboyhottubs.com) to learn more about our comfortable seating by collection and model.*

Advanced Technology  
**LA Z BOY**  
HOT TUBS

# Customizable Massage

An experience like no other.

We know a thing or two about comfort and we've created one of the most comfortable massage systems in the business. Our Comfort Massage Jets are perfectly positioned and pressure balanced to deliver a soothing and enjoyable hydrotherapy massage.

For those that are seeking a basic massage, our Classic collection hot tubs provide a well-built hot tub solution at an affordable price.

For those that are seeking a more comprehensive massage, our Signature and Premier collections really step it up and include our amazing Relaxology Foot Massage and Acupressure Neck Massage features. The pressure of our Comfort Massage Jets can be easily adjusted to allow you to customize the hydrotherapy massage right at your seat.

Our Premier collection hot tubs include our exclusive Comfort Zone Massage Technology that gives you an advanced level of hydrotherapy massage in either a Comfort Corner or Reclina-Seat in each of the models.

Users are able to conveniently turn the massage feature on or off by pressing the remote keypad that is located adjacent to the seat. This will activate a soothing scrolling massage up and down the major muscle groups on the back.

You can also easily adjust the massage intensity from as little as you want to as much as you like while customizing the massage pressure to ensure the most comfortable and comprehensive massage possible.

Please visit [lazboyhottubs.com](http://lazboyhottubs.com) to learn more about our customizable massage features by collection and model.

The jets are perfectly positioned and pressure balanced to ensure a silky smooth all over body massage.

# Convenient Maintenance

The innovative La-Z-Boy® Hot Tubs Water Management System combines dual\* microfiltration, pressurized ozone and a built-in floor drain. All designed to simplify water care and help ensure safe, healthy, clean water for you and your family to enjoy.

Our high performance water management features utilize efficient technologies that remove unwanted contaminants by an automatic micro-filtering process that is followed by a compressed charge of ozone gas\* which oxidizes organics and discharges them into the atmosphere. Our Comfort Clean Filtration System is electronically controlled to scrub the water to a sparkling shine.

All La-Z-Boy Hot Tubs offer the added convenience of a built-in floor drain. On a periodic basis, hot tubs must be drained and refilled so this makes it easy. The positioning and size of the drain in our La-Z-Boy Hot Tubs will discharge the water up to 25 percent faster than competitive brands and is able to empty almost all of the water saving you time and effort.

*Please visit [lazboyhottubs.com](http://lazboyhottubs.com) to learn more about our convenient maintenance features by collection and model.*

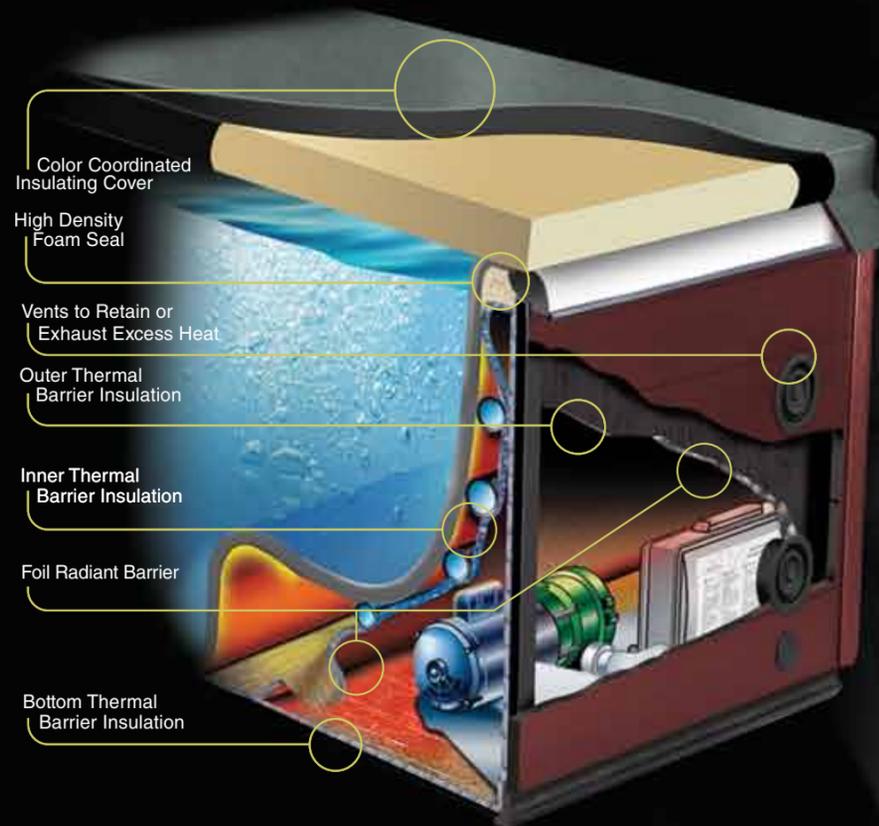

\*Classic Collection not included.

# Cost Efficiency

Energy efficiency is top of mind for all consumers and La-Z-Boy® Hot Tubs has taken every opportunity to make our hot tubs as efficient as possible. La-Z-Boy Hot Tubs are amongst the most energy efficient hot tubs made today and delivers the ultimate in energy efficiency while providing mounting space for multiple components and easy access if the hot tub requires service.

Our Therma Zone Insulation System is comprised of 5 insulating barriers including the Color Coordinated Cover. The plumbing, shell and floor are sealed in a Thermal Shield insulated blanket. As an added layer, the same Thermal Shield insulated blanket is installed on the backside of the cabinet around the entire perimeter of the hot tub. A vent is mounted in the cabinet to retain excess heat created by the pumps while allowing it to be exhausted in high outdoor heat installations.

Please visit [lazboyhottubs.com](http://lazboyhottubs.com) to learn more about our cost efficiency features by collection and model.

# Craftsmanship

Just as the founders of La-Z-Boy® did at the beginning in 1927, we have taken tremendous care, attention and craftsmanship to create, design and manufacture each and every La-Z-Boy Hot Tub. Special consideration has been given to every aspect of our hot tubs from Maintenance-Free Cabinetry, Integrated Support Structures, our Comfort Fit Shell and state-of-the-art electronics.

Our Weather Guard Floor provides a solid composite base for the hot tub to sit on. We seal the bottom with a PVC weather guard floor to ensure the heat stays in and the critters stay out. The Everlast Synthetic Cabinet is made of a composite maintenance free material that will never fade or age.

In Touch Electronic Controls are constantly monitoring the performance of the hot tub ensuring trouble free operation. The electronic controls also operate the heating system which can always be set to your favorite temperature.

*Please visit [lazboyhottubs.com](http://lazboyhottubs.com) to learn more about our craftsmanship features by collection and model.*

# Consumer Protection

La-Z-Boy® has a proven reputation for creating some of the finest quality products for the home and, building upon this track record of success, we are confident that you will enjoy the most comfortable hot tub ownership experience possible. Unlike some manufacturers who only offer limited warranties, La-Z-Boy Hot Tubs offers its customers a 100% No Nonsense, No Fine Print Guarantee to ensure peace of mind and care-free enjoyment.

- 10 Year Structural Guarantee
- 5 Year Acrylic Guarantee
- 100% Component Guarantee
- 100% AquaCoustics Guarantee
- 100% Exchange Guarantee

*Please visit [lazboyhottubs.com](http://lazboyhottubs.com) to learn more about our Consumer Protection features by collection and model.*

# Get Into Your Comfort Zone

# Comfort has its Options...

## Acrylic Shell Colors\*\*

Your La-Z-Boy® Premier and Signature Hot Tub is available in a wide range of colors and finishes.

\* Classic Collection available in silver marble only.

Black Cherry Everlast

## Cabinet Options

### Premier Hot Tubs Cabinetry

Everlast Cabinetry is maintenance-free synthetic premium quality cabinetry that is installed onto a sturdy wood substructure for the ultimate in durability and is embossed for the most realistic look possible.

Choose from these finishes...

### Signature and Classic Cabinetry

DuraCare Cabinetry is also a maintenance-free synthetic cabinet finish. This cabinets' panels are also designed to provide easy access to the hot tub plumbing or equipment on all four sides for service access.

\*Hot tub shell and cabinet colors may not be exactly as shown due to printing.

## Premier AquaCoustics Surround

This feature will be music to your ears when your hot tub is your backyard entertainment center.

The stunning electronics and high quality pop-up speakers and subwoofer create an exciting audio system that is as pleasing to your ears as the hot tub is to your body. The audio system creates an unparalleled entertainment package that can be enjoyed whether you are using the hot tub or just simply relaxing outdoors.

## Signature AquaCoustics Surround

Includes two speakers that are integrated into the acrylic shell of the hot tub. Audio functions are controlled directly from the hot tub's topside electronic controls and can be connected to your favorite Bluetooth enabled device. The result is a beautiful sounding audio system that compliments your all-inclusive hot tub package and adds an extra element of enjoyment while relaxing in your hot tub.

## iCommand System

Our innovative La-Z-Boy Hot Tubs' iCommand allows the user to control the functions of the hot tub using a smart phone. Simply download, install the In-touch app, ensure that the hot tub is within range of your wireless router and you will be instantly connected! This is especially useful for frequent travellers and second home or cottage installations!

Please visit [lazboyhottubs.com](http://lazboyhottubs.com) to learn more about our Acrylic & Cabinet colors and Options by collection and model.

# Our Collections at a Glance.

We build hot tubs to last.

Our hot tubs will stand the test of time - not to mention your kids. Our strong, state of the art and fully integrated support structure can handle whatever your family might dish out. La-Z-Boy® Hot Tubs are crafted to the highest industry standards with our frames, plumbing, mechanisms, cushions and shells constructed from the finest quality materials. Our hot tubs are comprehensively water tested in our manufacturing facility before being certified to carry the La-Z-Boy name and, just like La-Z-Boy furniture, they are quality tested before they leave our door. Superior quality control is our way of life. So get in, get comfortable and enjoy life.
