*Therapy*

*... Quality!*

It seems that quality will always be something that people search out no matter what country they live in.

Viking Spas was one of a select number of companies, and the first ever in the spa industry, to win the Presidential E award for Exporting Excellence. At Viking Spas, we have noticed that for economic reasons more and more manufacturers in our industry are using foreign-made components. Not to be outdone, some of the largest companies have moved their plants outside of our borders as well!

Viking is proud to use US suppliers for major components that make up our spas. Companies like Chevron, Balboa Water Group, & Ameriform, to name a few, are the partners we've chosen who share our beliefs.

Although buying American can be more expensive at times, there is no sacrificing quality. Viking continues to provide your local community retailer with a product they can be proud to sell. It is also this AMERICAN built quality that allows Viking to achieve great success with consumers in foreign countries.

In the congratulatory letter signed by the Secretary of Commerce John Bryson, he noted that Viking's dedication to using American products helps America. Our "American Initiative" is an example to other manufacturers that success can come from the quality products built by your friends and family!

Viking Spas was named Exporter of the Year in the Consumer Goods category, by ThinkGlobal Inc., publisher of **Commercial News USA**, the official export promotion magazine of the U.S. Department of Commerce.

*Commercial News USA* is a catalog-style magazine that reaches more than a quarter-million readers in 178 countries worldwide in print and online. Awards are given to one U.S. company in each of 13 industry categories.

*... Value!*

Viking Spas was started more than 25 years ago and operates as a family owned business. Our principles to deliver the safest, highest quality spas with the best value have been the hallmark of our success.

For eight years, our Royale spa was a Consumers Digest "Best Buy". This past year, our Legacy 2 received this honor and will again be a "Best Buy" for 2018. This recognition validates what our customers already know about all of our spas we offer. When considering the top features of our industry, touch screen controls, premium select cabinets, stainless steel jets, stereos and LED lighting, Viking packages all of these great features without the "option sticker shock".

With the quality components mentioned previously, Viking also backs up our quality with a LIFETIME warranty on our spa shell and a 6 year limited parts and labor warranty\*.

When considering quality, safety, features and dependability, Viking is the right choice.

\* Viking Plug N Play offers Lifetime Shell Warranty and 2 year Parts and 1 year Labor warranty

### Awards are not all the same

In the spa industry there are many "awards" that various manufacturers have paid to receive. Whether 5 star, an "independent" unknown website, or an award that is even self-declared can not provide what a little research will prove out. The Consumers Digest award is not one that anyone can pay to receive.

Fortune 500 companies who are fortunate to receive this award are proud to identify with this "Best Buy" indicator.

When shopping our spas you will find our award winning value, safety and quality in each of our spas. No matter your selection.

 **Soft-Touch**™  
SLIP RESISTANT SURFACE

*... Safety!*

No bath tub is complete without a rubberized bath mat to assure family safety and to guard against slipping and falling. However, in the spa industry surfaces that are made from the very same materials as bath tubs don't offer any protection against slipping and falling.

Viking Spas' Soft-Touch™ Slip-Resistant Surface offers a revolutionary way of protecting you and your family from slipping and falling when entering, exiting and moving from one dynamic therapy seat to another! Viking engineers have essentially provided a seemingly rubberized mat for your entire spa. Feel the difference over our competitors' spa surfaces that are slippery, especially when wet!

Our unique and exclusive safety surface was recognized by Consumers Digest stating, "Viking Spas introduced a slip-resistant tub surface that seems to distinguish itself from all other surfaces that are on the market". As incredible as our Soft-Touch™ surface is, Viking has also garnered recognition from no less than the President of the United States himself.

## Do children sit in spas?

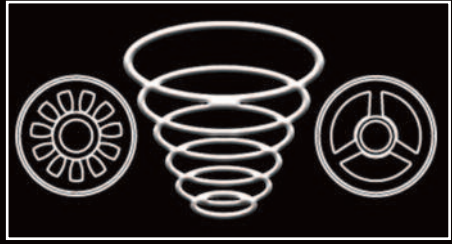

This is a really good question. If you have children who sit and will relax in the spa with you ... then maybe a spa with our Soft-Touch™ surface isn't the number one feature at the top of your list.

However, if your children like to move around a bit ... then isn't it a great idea to protect their footing with the most slip resistant surface you can find?

It may just be the best investment you make for your own peace of mind as well!

*... Therapy!*

Viking has two revolutionary items for spa shoppers ... the AirX and Vibrosonic Therapy Systems! Imagine lounging in a massage chair enjoying a deep tissue massage combined with soothing, therapeutic water. Then moving over to another seat for a completely different soft tissue massage. The ultimate therapy choices all in one spa.

Viking brings family togetherness, entertainment, and individual relaxation, but it's the therapy options we offer that have been the hallmark of our success. Experience the release, relaxation and rejuvenation that only Viking can provide.

After settling in the seat of your choice, let our calming, soothing effects of LED chromotherapy lighting and the soothing sounds of your favorite music on our bluetooth enabled quadrophonic sound system take you to whatever vacation spot you want to imagine.

## AIR X Therapy System

A completely new soft tissue hot tub therapy experience.

AirX infuses the soft feel of air and water. Utilizing Airnetic engineering, AirX multiplies the air output for a jet stream that is both soft and powerful.

By combining two flow patterns with stimulating reflexology, sore muscles and tired joints are soothed and rejuvenated.

### Two Flow Options:

**Trinetic:** precise therapy for targeting problem areas.

**Polynetic:** powerful balanced flow, perfect for wrists joints and extra sensitive muscles.

## VIBRO SONIC Therapy System

These unique Vibrating jets provide a "shiatsu" massage you just can't find in any other spa.

Depending on your needs, the massage can be totally personalized to be soft and gentle to relax you or more vigorous and penetrating to relieve nagging muscle pain.

Available in a 4 jet option this amazing jet system provides:

3 unique choices that offer a wide variety of massage;

various levels of intensity;

and the speed of how the jets interact with your different muscle groups.

### LED LIGHTING FEATURE

The perfect way to set the ultimate mood. Viking's LED lighting allows you to set multiple individual colors or transition from one color to the next while enjoying a refreshing soak.

### MAZZEI INJECTION OZONE SANITIZER OPTION

Viking has engineered the most effective sanitizing system for our spas. Using a patented Mazzei injector, ozone is more effective in sanitizing to provide clean, crystal clear water.

### OPTIONAL FOAM BOARD INSULATION

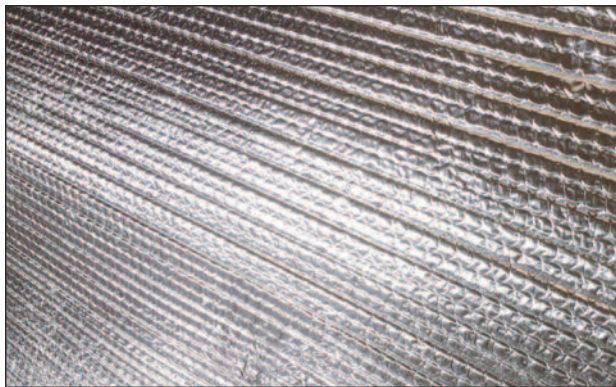

Our one inch foam board insulation is factory installed to provide an additional insulation and sound barrier.
