Special Requests: _____

Quality work and exceptional customer service are our main priorities. We endeavor to provide lead times that are as accurate as possible. While we know that it is hard to temporarily part ways with your firearm, please rest assured that we are diligently working through orders. Providing status updates takes away from valuable production time. Therefore, please resist the temptation to request status updates unless we have surpassed the projected lead time.

You will be notified immediately when your firearm is on its way back to you!
