

PRESS KIT / BIO

First Album

Cloverhill was born when guitarist / songwriter Paul Laskey met producer Grant Henderson at a music festival in France.

They both share a love of classic rock music and started work on recording Paul's songs at Grant's Loom Studio in Leeds, Northern England.

From this, the first Cloverhill album "7 of One, 2 and a Half of the Other" was created.

The album met very positive critical acclaim, giving rise to the band being followed by high profile music figures, including Neal Schon of Journey, Ron "Bumblefoot" Thal of Guns 'n' Roses / Sons Of Apollo, Michael Sweet of Stryper, Foreigner, Five Finger Death Punch, Yes.....and, more recently, new headline acts such as Massive Wagons, Those Damn Crows and The Dust Coda.

The band has so far remained independent, despite an offer from Mi5 / Universal....but always open to discuss the right offers of support.

Second Album

The second Cloverhill album "All Done With Dreaming" was released on 14th May 2020 and shows a more eclectic side to the band, with Blues and Funk influences but still very much with a rock edge.

Songs from this new album and "7 of One, 2 and a Half of the Other" are currently being played on Rock radio stations around the world.

The release of "All Done With Dreaming" saw Cloverhill:-

- At #1 Nationally on the Reverbnation Rock Chart for 10 weeks and reaching #9 Globally.
- Taking part in the radio based Modern Rock Wellbeing Festival.
- Scheduled to appear in the HRH New Wave Of Classic Rock Festival in January 2021 (now January 2022)
- Scheduled to appear in the Wildfire Festival, Summer 2021.

The band line up is:-

Paul Laskey - Guitar and Vocals

Jon Hollins - Drums

Marcio Couto - Bass

These widely experienced musicians met at the local Musos cafe, "The Shift", in the band's home town of Burnley, North West England, and came together after a number of very enjoyable jams at the cafe.

The group is ready to go live with stripped down, power trio versions of songs from both Cloverhill albums.

Warm up gigs were extremely well received with descriptions like "Motorhead meets Cream, meets the Chilli Peppers", with our Brazilian bro, Marcio, bringing a new funk edge to the "Keith Moon'esque" live drumming style of Jon.

A new song, "Leaves A Scar", was released 14th November 2020, with a **very special guest** on Hammond B3 and Piano, **Derek Sherinian** (Sons Of Apollo, Black Country Communion, Dream Theater.....)

Despite the challenges of 2020, the close of the year Cloverhill saw:-

- “All Done With Dreaming” feature in the top 20 albums of 2020 on four major rock shows, including with Beastie on Hard Rock Hell.

- The album’s opening track “ I Will Set Me Free” in the top 40 most played tracks of 2020 on the Guy B Rock Show at the influential greatmusicstories.com

- “Leaves A Scar” in the top ten played tracks on radio stations around the world.

- The “Leaves A Scar” video gaining over 33,700 views on Facebook within 7 weeks of upload.

- Cloverhill music selected by Pop Up Music for sync placement in films, TV, Adv, Games etc.

The band is currently recording their third album, “Just North Of Hell”, and more new material will be released in 2021, starting with “Radio”, released 16th April, which is a track from the new album, coming Summer 2021.

“Radio” – “Another stunning slab of slick Classic Rock from Cloverhill” – Hard Rock Hell Magazine.
