| What additional info  | ormation would have b  | een helpful?              |  |  |  |  |  |
|   |                        |                           |  |  |  |  |  |

| PART 3: Varied Perspectives  |
|--|
| Client's Perspective   |
| What might the client's experience have been? What were their priorities or concerns?  |
|  |
|  |
|  |
|  |
|  |
| Family's Perspective   |
| What might the family members have been thinking or feeling? What constraints or       |
| pressures might they be facing?  |
|  |
|  |
|  |
|  |
|  |
| Other Professionals' Perspectives  |
| How might other team members view this situation? What different priorities might they |
| have?  |
|  |
|  |
|  |
|  |
| My Perspective   |
| What assumptions or biases might I have brought to the situation? What influenced my   |
| interpretation of the situation?   |
|  |
|  |
|  |
|  |
|  |
|  |

| PART 4: Decision An        | alysis                       |                     |                |
|----------------------------|------------------------------|---------------------|----------------|
| Why did I decide to        | use the approach I did?      |                     |                |
|                            |                              |                     |                |
|                            |                              |                     |                |
|                            |                              |                     |                |
|                            |                              |                     |                |
| <b>Alternative Approac</b> | ches I Considered            |                     |                |
| Option 1:                  |                              |                     |                |
| Advantages:                |                              |                     |                |
| •                          |                              |                     |                |
|                            |                              |                     |                |
| •                          |                              |                     |                |
| Disadvantages:             |                              |                     |                |
| •                          |                              |                     |                |
| •                          |                              |                     |                |
| •                          |                              |                     |                |
| Option 2:                  |                              |                     |                |
| Advantages:                |                              |                     |                |
| •                          |                              |                     |                |
|                            |                              |                     |                |
| •                          |                              |                     |                |
| Disadvantages:             |                              |                     |                |
|                            |                              |                     |                |
| •                          |                              |                     |                |
| •                          |                              |                     |                |
| What influenced my         | v final choice?              |                     |                |
|                            | ,                            |                     |                |
|                            |                              |                     |                |
|                            |                              |                     |                |
|                            |                              |                     |                |
|                            |                              |                     |                |
|                            | in my ultimate decision?     |                     |                |
| $\square$ Very confident   | $\square$ Somewhat confident | $\square$ Uncertain | □ No confident |

| PART 5: Outcome Reflection                                 |      |
|--|------|
| Was the outcome what I expected?                           |      |
| ☐ Yes ☐ Mostly ☐ Somewhat                                  | □ No |
| What worked well?  |      |
| •  |      |
| •  |      |
|  |      |
| •  |      |
| What didn't go as planned?                                 |      |
| •  |      |
|  |      |
|  |      |
| •  |      |
| What would I do differently next time?                     |      |
|  |      |
|  |      |
|  |      |
|  |      |
|  |      |
